

David McNab

Dear fellow students,

Congratulations for deciding to better yourself in life, and commit to a long programme of often difficult study.

I am David McNab, acting EXMSS President, and I come to you as someone ready and qualified to fight for your interests, to ensure all your efforts, time and expense actually bring the life advantages you're seeking, and so deeply deserve — advantages, which for too many of us, sadly won't manifest.

Massey has reasonably good systems, which helped me earn a business degree and commence my masters. But we're capable of much more than just "reasonably good". I have a carefully planned roadmap to help Massey University become brilliant, and give all students the support, justice and value for money they deserve.

There is much work ahead, to fill in some serious gaps: staff not being adequately trained and supported in extramural delivery tools; inconsistencies in Stream delivery; lecturers too caught up with research to be there for their students; and countless other issues.

You need a student on Council with solid internal and extramural study experience, maturity, widespread respect, and a proven track record of student support.

Make it Real! Vote David McNab for Massey University Council.
