## What makes truly great organisations so successful?

The answer lies not in what you see or the tools people use, but in the feel, the pure essence of these organisations. It is the mind-set, the language, the confidence and the sheer passion for excellence.

Our 2016 Conference will focus on creating a sustainable culture of continuous improvement by engaging people at every level in the organisation to work towards common objectives.

A great opportunity to learn and meet with others working in continuous improvement. Inspiring stories, facts and challenges shared openly.”
