

Request to register for teleradiology

Please register our practice for teleradiology services at Massey University. Here is our required subscription information.

Practice Name:

Address:

Email:

Names of all vets within your clinic:

Type of digital x-ray equipment used:

This information will be used to register you as a “New Client” with DVM Insight.

DVM Insight will contact you directly and talk you through the process of submitting images.

Once a month we will send out invoices to each clinic for the cases sent through.

The cost for radiology reporting remains the same (currently \$70 for standard images and \$120 for a CT study). You may notice on the website that there is an initial one-off registration fee for you to sign up with DVM Insight. Because of your previous loyalty to the Veterinary Teaching Hospital, this charge will NOT be passed on to you; the VTH will pay this registration fee for you.

If you have any questions please don't hesitate to contact the radiology service by email on radiology@massey.ac.nz
