A GRADUATE'S PERSPECTIVE

■ GRACIE XIAO, China

Master of Food Technology, Auckland campus

"Massey University graduates are also well-known for being practical, hands-on and quickly adapting to the work environment. That is exactly what I wanted to be like when I graduated and the programme has well equipped me to achieve my goal.

I have been working in the new product development team for Sanitarium Health & Wellbeing since I completed my Postgraduate Diploma in Food Technology. Later, I was awarded a scholarship from my current employer to complete my Master of Food Technology part-time while continuing working.

The most rewarding part of the study is that I can use all the practical skills in my daily job and the knowledge gives me confidence to tackle real work problems."

POSTGRADUATE CERTIFICATES AND DIPLOMAS

With a postgraduate certificate you can build on knowledge and skills you've already achieved, whether through a degree or equivalent practical or professional experience. You can also use it as a bridging programme for postgraduate study or research in an area different from your prior training, experience or qualifications. The duration of Postgraduate Certificates are 60 credits and are generally completed in one semester. A postgraduate diploma is a qualification that builds on achievement in a previous degree. The qualification is open to graduates who meet academic postgraduate entry into the University. The duration of study is generally one year full-time. Postgraduate diplomas are 120 credit programmes.

Tuition fees quoted are based on 120 credits of study within the programmes, unless stated otherwise. Each 15 credit course requires approximately 10-12.5 hours each week of class and study time.

A GRADUATE'S PERSPECTIVE

■ JENNIFER POITEVINT, USA

Bachelor of Nursing, Wellington campus

"I really would recommend others coming to Massey to study, as I have found it to be a supportive environment with passionate and qualified lecturers. The international staff has always been extremely helpful, especially when I had questions about my visa or tuition."

MASTER'S DEGREES

Coursework master's (C) are a postgraduate degree awarded for advanced study that normally builds on the principal discipline area(s) of a qualifying undergraduate degree. It will include a research report, creative or scholarly work as defined within the programme. A coursework master's is generally a 180 credit programme and they are structured to be completed in either 1 year (three consecutive semesters), or 1.5 years as stated.

A research master's (R) is a postgraduate degree awarded for advanced study that normally builds on the principal discipline area(s) of a qualifying undergraduate degree. A research master's will comprise coursework and thesis and is generally a 240 credit programme (2 years), however some are 180 credit programmes (1.5 years). **Tuition fees quoted are based on 120 credits of study within the programmes, unless stated otherwise.**

Each 15 credit course requires approximately 10-12.5 hours each week of class and study time.

DOCTORAL DEGREES

A doctoral degree is the most advanced postgraduate qualification. It requires the completion of a research thesis or creative work that makes an original contribution to new knowledge. Named doctorates also require completion of a research thesis as well as specified course work. Normally a minimum of three years full-time study is required for a doctoral degree.

A GRADUATE'S PERSPECTIVE

■ HANH BUI, Vietnam

Master International Development, Palmerston North campus

"Massey development studies professors and lecturers are not only well known academics and researchers but also experts in development practice and policy in diverse contexts including the Pacific, Africa and especially Asia.

The Master's Programme in International Development at Massey helps me both widen and deepen my understanding of how global, economic, political, environmental and social forces are shaping the world we live in."
