Student Profile: Francisco Lora

I am a Designer from the Universidad de los Andes and during the last few years I have been working on graphic novels

and storyboards for movies. I decided to come to New Zealand and study at Massey University because of Massey's wide experience in the Design industry.

I have completed my Master of Design (MDes) at Massey University in Wellington which has contributed to my growth as a person and as a designer. My project is about the Colombian conflict represented in a graphic narrative and thanks to my supervisor and critique sessions the project reached a high level of standard.

New Zealand is a wonderful country to live in while you are doing your studies. In Wellington everything is within easy reach and wherever you look there is a beautiful landscape. This is a wonderful experience that I highly recommend anyone take.
