Wellington offers a comprehensive network of buses and there is a bus stop right outside 222 Willis. We strongly recommend that you consider relying on public transport rather than bringing a vehicle with you.

Bicycles and Skateboards

222 Willis has a bicycle stand on site. It is your responsibility to ensure that the bike is locked to the wall at all times. 222 Willis takes no responsibility for the security of bicycles stored on-site.

Please note that bikes are not permitted inside apartments or bedrooms and they are not to be left on the ground, against any building wall or attached to the building in any way.

As bicycle theft is fairly common in Central Wellington we suggest if you own a valuable bike you do not bring it with you to the city.

Skateboards should be carried, not ridden, inside the building and they should be stored in your bedroom. Any skateboards ridden in the building may be confiscated.

Lost cards and keys will result in charges for replacements to be made and locks to be changed.

At the end of the residency term all keys and cards must be returned to 222 Willis. Failure to do so will result in the resident incurring the liability for the full replacement of all the cards/keys which were issued and replacement of locks if necessary.

Homesickness and Personal Issues

Homesickness can affect many residents especially if you may have moved from a town, city or country which is very different to Wellington or New Zealand. Making an effort to meet others and getting involved in student life will ease your transition.

If you are experiencing difficulties there are a number of people who can assist you. We recommend residents act early to prevent any disruption to their academic/social wellbeing. If you or a friend is struggling with issues please speak to your Residential Team or any member of staff. The Residential staff are trained and have established connections with your tertiary institutions. They can assist you in working out who to approach to get support at your place of study. Please remember that there is always someone to turn to.

Absences

If you are planning to be away from the complex for any length of time please advise your Residential Assistant. This is particularly important if you are going hiking, mountain biking, tramping or caving. During the semester breaks Residential Assistants may enquire about your plans.

COMMUNAL LIVING

Apartment Agreements

Living with people you may not know can often be difficult. In an effort to assist you and your flatmates to get along your Residential Assistant will arrange an apartment meeting within the first two weeks of any new residents arriving. At this meeting the Residential Assistants will appoint a representative for the apartment and formulate an apartment agreement. This is also an opportunity to discuss any other flat rules or decisions you may wish to discuss.

Conflict Resolution

It is really important to raise issues as they occur before they become a problem. Talk about the actions not the person and if you have any concerns speak with your Residential Assistant or the Community Manager.

Alcohol and Drugs

Alcohol and drugs have a negative impact on some of our residents during their stay. Even if you do not actually drink alcohol or take drugs you are likely to experience second hand harm from them through your study.

222 Willis is specifically provided to assist students in achieving academically. We take the consumption of drugs and the over consumption of alcohol very seriously. Our management of alcohol and drug related offences are covered in our community standards, as is information regarding gatherings and noise. Please note the consumption of alcohol during study and exam times may be restricted as you are living in complexes specifically operated to facilitate academic success.

Guests and non-residents

A guest is defined by a person who has an 'overnight guest pass' that has been signed by an RA or member of the 222 Willis staff. A non-resident is any person on site who is not a resident of 222 Willis in 2016. You are responsible for the behaviour of your guests and will be held liable for any rule breaches or damage resulting from their visits. Guests include all former residents. A non-resident or overnight guest cannot be wandering around the Hall unaccompanied. Unaccompanied non-residents will be escorted off the premises.

Community Service is often used in lieu of fines or other punishments. Community service consists of tasks that benefit the 222 Community. This may include tasks such as cleaning, gardening or mail delivery. Some fines are able to be paid off with Community Service. Please speak to the Community Manager or Residential Coordinator if you would like to know more about this option.

SAFETY

222 Willis Safety

222 Willis was designed with safety and security as high priorities; however, it is important that you actively assist us by not allowing people to follow you into the building. 222 Willis has a number of external doors that only allow people who live within the complex to access via a swipe card.

Residents are advised not to let people they do not know into the building.

Please Note: If you allow someone into the complex you are taking responsibility for their behaviour for the entire duration of their visit. Disciplinary action, including charges for any damage caused by a guest will be forwarded to the residents account.

In addition to restricted access 222 Willis has security cameras operating 24hrs a day and staff and/or security guards on duty overnight.

Each apartment door is fitted with a swipe unit and each bedroom door is fitted with a lock. It is strongly advised that residents make sure they lock their bedroom doors when they are not in their apartments.

Each student has Swipe card access to all common spaces and their residential floor. If you wish to visit a floor you do not live on you need to arrange for your friend to meet you in the foyer and take you up. Levels ground and 5 have access to the above and below floors (respectively) in order to access laundry facilities.

There are a number of simple ways that you can keep your property safe

- Make a note of the: make, model, serial number etc of your valuable property (cell phones, cameras, iPods, laptops, iPads, TVs). The best way to do this is to take a digital photo of the item and another of all the serial number details on the rear. Print these or store on a disk away from your laptop.
- While taking note of the serial numbers, use the opportunity to security mark your property. 'Stanford' brand invisible markers are available at most book shops and only cost a couple of dollars. Engraving is another good way to ensure your property is identifiable. A handy tip is: when marking the property, use your Driver Licence or Passport Number. This is a unique number that is identifiable only to you.

Road Safety

If you have a car, motorbike or bicycle during your time in Wellington, you must obey all traffic laws. The speed limit in the CBD is generally 30kph. Cyclists - remember to wear a helmet and high visibility clothing, and you must have front and rear lights during the hours of darkness. Compliance with the road rules not only saves injury or death, it will save you money by avoiding the fines!

General Safety Issues

For safety and security reasons it is not permitted to:

- Throw anything out of, or hang anything from any window

Both residents and the Community Management Team have roles to play setting the standard at 222 Willis.

Community Management Teams will:

- Be respectful and consistent in their interactions with residents
- Hold residents accountable for their actions
- Administer an investigation process that is consistent, fair, and provides residents with the opportunity to be heard
- Acknowledge that antisocial behaviour is often the result of other underlying issues and assist residents in accessing support mechanisms

Residents will:

- Set high standards for themselves and other community members
- Seek clarification when in doubt about the intent of a standard
- Respond in a respectful manner when confronted by a community member or staff member about a possible breach
- Understand that there is an investigation process in place that provides an opportunity for all perspectives to be heard
- Respond to all communications and meetings, and to complete all sanctions resulting from breaches of the community standards
- Not break any New Zealand laws

It is the staffs hope that all residents will choose to live up to the community standards. If you are in the presence of an activity that breaches the standards, you have some choices:

- You may attempt to stop the violation or;
- You may contact residential staff or;
- You may remove yourself from the situation.

RESPONSIBLE ACTION AMNESTY

At 222 Willis the wellbeing and safety our community members is paramount. As such residents are expected to alert staff in the event of any health or safety emergency, specifically including those involving the abuse of alcohol or drugs, even if breeches of the community standards may have occurred in connection with the emergency.

Because we understand that fear of possible disciplinary actions may deter certain requests for emergency assistance 222 Willis has adopted Responsible Action Amnesty to alleviate such concerns and promote responsible action on the part of residents.

In a situation involving imminent threat or danger to the health or safety of any a community member residents are expected to:

- contact emergency services (if required)
- contact a residential staff member
- remain with the individual(s) needing emergency treatment and cooperate with emergency services
- meet with the Community Manager after the incident and cooperate with any investigation

The Community Manager will consider the positive impact of taking responsible action in an emergency situation when determining the appropriate response for any breach in standards by the reporting resident. This means that no formal disciplinary actions or consequences will be imposed for alcohol or drug infractions, but the incident will be documented, and educational, community, and health interventions may be required as a condition of deferring disciplinary actions or sanctions.

The protocol does not protect repeated, flagrant, or serious violations of the community standards (including physical or sexual assault, violence, hazing, harassment, theft, or vandalism or instances where multiple individuals need medical attention), nor does it preclude or prevent action by police or other legal authorities.

The Community Standards listed below are ever evolving. They are directly related to the community that lives at 222 Willis and as such they are subject to change. Where either the Community Management Team or residents feel a change is needed in the standards set at 222 Willis a consultation process will be undertaken and discussions will be held. All community members will be notified of any amendment or addition to rules before they come into force.

DISCIPLINE PROCESS

Outlined below are the specifics of the process undertaken when investigating and resolving a complaint of misconduct.

Investigation Process:

Upon receipt of an incident notice the Community Manager will undertake an investigation. The following steps are followed:

1. Notify the resident of the alleged misconduct
2. Invite the resident to respond to the complaint
 - A meeting will be held by the Community Manager to discuss the alleged complaint
3. Review relevant documentation, seek clarification and make other relevant inquiries
4. Provide any material obtained in the course of the investigation to the student
5. Examine and evaluate facts and evidence

Resolution Process:

Once an investigation is completed the Community Manager would advise the resident of the outcome of the investigation. This includes advising the resident why it is believed that the complaint was proven, the penalty imposed and reasons for the penalty. Residents are given an opportunity to discuss the outcome further and the respondent has the right to appeal the outcome.

If misconduct is concluded the Community Manager will advise the resident in writing of the outcome of the investigation. This includes information on the penalty and appeal process. If the complaint is not upheld the Community Manager will advise the resident that the complaint is dismissed and no penalty is imposed.

Urgent Action:

If senior staff on duty at 222 Willis has reasonable grounds for believing that a resident has committed or is committing a breach of the Community Standards or New Zealand Law and that immediate action is required to protect the safety and wellbeing of the community, they may exclude the resident from the facility for a period not exceeding 48 hours. This urgent action will not prejudice any future investigation. All costs associated with the exclusion are to be paid by the resident.

COMMUNITY STANDARDS

Residents are responsible for their own actions, and have a collective responsibility to the residential community.

What does that mean? Levies can be imposed on each resident for costs incurred to repair damages/losses that cannot be attributed to a resident or group of residents. Such levies cover the replacement of stolen or lost property and repairs to items such as broken windows and damaged furniture.

Drugs are bad for our community.

What does the mean? The use, possession, cultivation and paraphernalia of all types of illegal drugs and non-prescription drugs by any resident or visitor is strictly prohibited. A drug is defined as "any substance which changes the way the body functions and may alter its biological structure".

The over consumption of alcohol and behaviour that disturbs the peace and privacy of others is disrespectful.

What does that mean? To minimise the likelihood of over consumption of alcohol the following guidelines have been put in place.

1. Possession of bulk lots of alcoholic beverages, that is, amounts for storage or use that is excessive under the circumstances for personal use not acceptable.
2. Devices used or intended for the rapid consumption of alcoholic beverages are prohibited
3. Games intended for the bulk or rapid consumption of alcoholic beverages are prohibited
4. Kegs, cases of beer, and other beverages with an equivalent amount of alcoholic content in any form of container are considered bulk alcohol.

You are expected to be considerate of other community members.

- Offensive jokes
- Expressing stereotypes (assumptions about an individual's behaviour/values or culture based on a group they belong to) in an offensive or insensitive manner.
- Derogatory or offensive material sent through the mail, email, by mobile phone text or published on a social media website.
- Unwanted physical contact

It is against the law and unacceptable to tamper with Fire equipment

What does that mean? Simple – it is illegal and unacceptable to tamper with fire equipment including exit signs, propping smoke doors open, disabling or covering smoke detectors, discharging fire extinguishers for any other purpose than putting out a fire.

If you cause the fire alarms to be activated (either accidentally or maliciously) then you will bear the charge from the Fire Department for a false callout. If the person responsible cannot be identified, the charge will be borne by all residents as part of a levy. At the time of writing, this charge was approximately \$1,800 per callout.

This also means you may be disciplined if you ignore emergency alarms, or use routes not designated as emergency exits. Failure to exit in a timely fashion at the sounding of the alarm will result in a \$100 fine. There are designated fire and evacuation wardens responsible for certain areas. In the event of an emergency, you must follow their instructions immediately and without question.

Covering any smoke detection unit in apartments or bedrooms will result in an automatic \$50 fine.

Use of the fire exit stairwells in a non-emergency will result in a minimum automatic \$50 fine.

Vandalism of property is disrespectful and there is zero tolerance for this at 222 Willis.

What does this mean? You are living in one of the newest student accommodation facilities in the region. The building itself is part of the community and vandalism of our home will not be tolerated. You are expected to keep your apartments to a reasonable standard and you will pay for costs involved in cleaning, repairing or repainting your room if deemed necessary by 222 staff.

If you cause and report any accidental damage, we will endeavour to keep any remedial costs to a minimum. If no one reports damage or takes responsibility for any damage, individuals, floors or even all residents will be held liable for extra charges. Remember you are responsible for the behaviour of your guests while on the premises. Damages caused by your guest(s) will be charged to you accordingly.

Items, acts or activities that endanger self or others are not acceptable.

What does this mean? The following activities are not acceptable:

- You may not have or store firearms or other weapons within the property, they are strictly forbidden at all times
- You cannot burn anything in your room.
- You may not under any circumstances move your bed or any piece of furniture or other item against a heater, as this will cause a fire. You cannot interfere with fire door stays or keep fire doors open in any way
- You may not have or use fireworks in and around the hall
- You may under no circumstances whatsoever go onto the roof atrium pillars, or carpark side pillars of 222 Willis. A minimum of \$200 fine will be imposed if caught.
- Some windows have a security stay fitted. You may not alter or remove these. You may not, under any circumstances throw anything out of, or hang anything from, any external window, balcony or stairway or place anything or any obstruction in the corridors

Please note that this is an indicative list, not an exhaustive list!

Abusive behaviour towards any community member (including staff and contracted security), physical or verbal is unacceptable.

No explanation needed.

Community members are held fully accountable for their guest's behaviour and actions.

What does this mean? Your guest is your responsibility from the time that they are signed in to 222 Willis right up to the time they leave. Your visitors will not be provided access by Reception or RAs, guests must be escorted through the property and remain in your company at all times. Your visitors are not permitted to enter the hall if you are absent, unless another resident undertakes full responsibility for the visit and the guest remains in their company until departure. Your guests are most welcome to enter the hall provided they:

- Are met at the front door by you, their host.
- Are sober, quiet and well-mannered
- Behave responsibly while on the premises
- Remain in your company while on the premises
- Are accompanied to the front door by you when it is time to leave
- Leave quietly when they depart
- Leave the building before 10pm (unless they have an overnight guest pass)

If a family member or a friend wants to stay for a night or two, he/she is generally welcome to stay provided you have made arrangements in advance with the Accommodation Office.

Respect yourself, respect your hall mates, respect the staff and respect the building.

EMERGENCY PROCEDURES

MEDICAL/PSYCHOLOGICAL

Ensure the duty Residential Assistant is notified if you or another resident has or is experiencing a medical emergency. If the emergency is of a serious nature phone an ambulance on **111**. If you are unsure of what action to take contact a staff member immediately so that the situation can be assessed.

EARTHQUAKE

Before an earthquake

Getting ready before an earthquake strikes will help reduce stress and increase preparedness at 222 Willis.

As part of developing your apartment agreements you will develop a group emergency plan. This will include what you will do as an apartment to help account for and keep each other safe. You will also be encouraged to assemble and maintain an emergency survival kit in your apartment including a 'go bag'.

We will be holding earthquake drills at 222 Willis. These will include practicing **Drop, Cover and Hold**.

During an earthquake

- Move no more than a few steps to a safe place, drop, cover, and hold.
- Do not attempt to run outside.
- If you are inside at 222 Willis - stay there! It is frightening to stay in a building immediately after an earthquake but it is much safer than immediately going outside. Civil Defence Emergency Management have said it is not like a fire. You do not have to evacuate a building straight away unless it is showing obvious signs of distress. If you eventually evacuate, take your wallet, coat, bag, shoes etc. You are more vulnerable if you leave those things behind. If you have a getaway kit or "go bag", take it.
- If you are outside, move no more than a few steps to a safe place (e.g. move to a doorway, away from buildings, power lines and other potential hazards), drop, cover, and hold.
- If in a lift, stop at the nearest floor and get out.
- If you are near the coast, drop, cover and hold during an earthquake. Then move immediately to higher ground when the shaking stops.

After an earthquake

- Expect aftershocks and help those around you if you can.
- On your floor – after the shaking stops, get your neighbour, gather together, check for injuries and get first aid if necessary. Select a leader or wait for a residential staff member to come and see you.
- Report injuries, fires, broken wires or pipe damage to the Residential Staff or if necessary the emergency services (dial 111).
- Be aware that the electricity supply could be cut, and fire alarms and sprinkler systems can go off in buildings during an earthquake even if there is no fire. It is possible that the lift will not be working.
- Only use your phone for short essential calls to keep the lines clear for emergency calls. Send text messages to let your loved ones know you are okay.
- Residential Staff in 222 Willis will be checking all the stairs and then coming around the levels to check on everyone. They may encourage you to gather together, if possible, in the events centre on the ground floor.
- 222 Willis Street is not in a Tsunami risk *area*.
- Residential Staff will also be gathering information on what is happening in the surrounding area and elsewhere in town. They will post updates on the ground floor notice board. Listen to the team for advice and information; they have all been trained in earthquake procedures.

Evacuation after an earthquake

- The advice from Civil Defence Emergency is not to evacuate buildings straight away unless it is showing obvious signs of distress. It is frightening to stay in a building immediately after an earthquake but it is much safer than immediately going outside.
- We will evacuate the building if there are fires that cannot be controlled or if you can see obvious structural damage in the building. 222 Willis is over 80% of the building code so will likely last very well in a large earthquake.
- If required our earthquake evacuation assembly area will not be the same area as our fire evacuation point. We would likely evacuate to the carpark opposite 222 Willis but we would expect residents to remain in 222 Willis until the Residential Team advise you that a safe route to the evacuation point has been established.
- If we do evacuate, take your wallet, coat, bag, shoes etc. You are more vulnerable if you leave those things behind. If you have a getaway kit or “go bag”, take it.
- Do not go sightseeing and stay out of damaged buildings.
- While at the evacuation point we will create a register and log residents that are present. We will work to establish the whereabouts of as many residents as possible and if anyone leaves we will log where they intend to go.

FIRE ALARMS

222 Willis has smoke detectors, fire protection devices and posters detailing evacuation procedures and assembly points. It is essential that all residents familiarise themselves with the location of fire appliances, nearest exits and assembly areas.

Discovering a Fire

On Discovering a Fire - Immediately operate the nearest fire alarm call-point and telephone the Fire Service (dial 111). Only attempt to extinguish the fire if there is no likelihood of risk to personal safety (do not use water on a fire involving an electrical appliance).

Fire Wardens

Evacuation Wardens on each floor are appointed at the beginning of the year. There will be at least one Evacuation Warden Representative for each floor who will be instructed and trained on fire safety and evacuation procedures. Evacuation Warden will be appointed in the first week of your arrival.

Your Residential Assistants will also act as fire wardens in the event of a fire. Please follow their instructions.

Fire Alarm Activation

On Hearing Smoke Detector Alarm residents are required to leave their room immediately, ensuring that the windows and doors are closed, but not locked.

Local smoke alarm silencer / Acknowledgement

If there is smoke in an apartment (say from burnt toast) the local alarm will sound. This is a beeping sound *without* a voice-over. This alarm will sound to all apartments in your zone. A zone is identifiable from fire door to fire door. Please ensure you know where YOUR zone Acknowledgement / Silencer is located. If you have to pass through fire-stop doors you have left your zone. A silencer is located in EVERY ZONE and will only silence the zone that its located in.

Gently press the red or black button, the sound will take a few seconds to 'wind down'. Please do not freak out if the sound doesn't stop instantly.

As long as your apartment is now smoke free the alarm will not sound again. However if smoke is still present the alarm may activate again. You need to re-silence it. There is a limited amount of times you can silence the alarm before the full building alarm is activated.

Do not let smoke into the corridor. If smoke is present there, it will set the full building alarm off, which cannot be silenced.

Fire Alarm Manual Call Point

If there is a real fire or smoke in the building this needs to be activated. Lift the plastic flap and press hard on the black dot. It will sound the alarm in the whole building and has a voice-over giving evacuation instructions.

Do not push this if you are trying to silence your local alarm. This does not silence the alarm. It activates it. Once pushed, it cannot be un-pushed. This sets the evacuation alarm off in the whole building. On hearing this alarm everyone is required to evacuate, the fire department is automatically alerted and on their way.

The call out cost for the fire trucks and to get the fire alarms re-set is around \$1800.

Door Tags

Every studio and bedroom has a green "Room Clear" tag. This **MUST** be kept on the back of your door handle. Please immediately see reception if you need a new tag.

Studios—as you exit your room in an evacuation place your tag on the corridor side of the door.

Two / four beds— check the rest of your apartment to ensure everyone is out of bedrooms and the bathroom. If you can CONFIRM no one is left behind place the green tag on the corridor side of the apartment door.

If you cannot confirm the apartment is empty place the green tag on your bedroom door only.

Fire wardens only check room **not** displaying a green tag. The more tags placed on doors the quicker the fire wardens can complete their checks and evacuated themselves.

Take your apartment card/key with you but leave all other belongings behind. During office hours our staff are responsible for responding to fire alarms. If you suspect the alarm was activated because of your apartment please report to a staff member as soon as possible so they can notify the Fire Service.

If an evacuation occurs at night it is recommended that the residents take a blanket or some warm clothing if possible. Residents are requested to knock, wake-up and warn the residents in the adjacent or nearby rooms. Residents are to leave the building by the nearest exit and proceed to the assembly point as stated on the Evacuation Plan (do not run and, if there is smoke, keep low to the ground). Lifts are not to be used in the event of an evacuation.

Do not take food, drinks or electronics with you as you evacuate.

EVACUATION PROCEDURE FOR PERSONS WITH INJURY OR DISABILITY

The purpose of this is to highlight procedures during evacuations for staff, students or visitors who are unable to leave the building due to injury, disability or other unforeseen reasons.

During an evacuation, where possible the individual is to be brought to the designated evacuation point or to the nearest stairwell. The Floor Warden is to locate a volunteer to remain with the individual until emergency services arrive.

The Floor Warden will then report the location and names of the individual and the volunteer to the Chief Fire Warden, who will immediately notify the Fire Service on their arrival. The Fire Service will evacuate the individual and their volunteer.

Where an individual cannot be moved to the stairwell, the Floor Warden is to locate a volunteer to remain with the individual until emergency services arrive. The Floor Warden will then report the location and name of the individual and the volunteer to the Building Warden, who will immediately notify the Fire Service on their arrival. The Fire Service will evacuate the individual and their companion.

LOCK DOWN PROCEDURES

In the event that the lock down of 222 Willis is required the following will occur. The lifts will be taken out of action to prevent movement around the building. Wardens will move through the building instructing residents to turn off lights, stay away from windows and stay in their apartments until otherwise notified.

ALTERNATIVE ACCOMMODATION

In the event of a disaster, e.g. earthquake, major fire, or disease outbreak, which temporarily requires the evacuation of residents from the complexes, 222 Willis will endeavour to arrange alternative accommodation if health and hygiene regulations permit. Alternatively 222 Willis will release residents from their Lease Agreement obligations as required and no rental payment will be required for this period.

EVACUATION WARDENS

Evacuation Wardens on each floor are appointed at the beginning of the year. There will be at least one Evacuation Warden Representative for each floor who will be instructed and trained on fire safety and evacuation procedures. Evacuation Wardens will be appointed in the first week of your arrival. Your Residential Assistants will also act as wardens in the event of a necessary evacuation. Please follow their instructions.
