

EDUCATION SETTING OBSERVATION FORM

The school or early childhood setting you observe should be related to the endorsement you are applying for (eg early years, primary, secondary). Your observation should consider the learning and teaching occurring as well as transitions, strategies for fostering positive routines, engagement, and participation in the learning community. Your observations will include firstly a description of what you have observed. Secondly, a personal reflection that expresses what you have noticed about teaching and learning in Aotearoa New Zealand education settings and what this meant for your understanding of being a kaiako. Your supervisor kaiako/teacher will sign your observation before you leave.	Date: Day Month Year Location: Education setting: Ākonga/learners (brief description eg, how many):
