End.

M-4-2 Television Production Centre (TVPC) Video Collections

Note: The TVPC produced TV programmes and videos to support extramural teaching and did outside work on contract, including for TVNZ and TV3 news and documentaries. As other technologies for delivering extramural teaching evolved and became more cost effective, the University moved away from using the television medium for extramural teaching and hence closed the Centre at the end of 1997.

The three collections listed below were transferred to the Archives in 2011 and, combined, consist of nearly 950 videos. The TVPC Master Video Collection (M-4-2-1) contains master copies of material produced by the TVPC between 1984 and 1997. The Supplementary Video Collection (M-4-2-2) consists of a variety of material, including some unique, older material that may pre-date the Master Video Collection, some duplicates of videos held in the Master Video Collections and also some working files. The collection of broadcast tapes (M-4-2-3) consists mainly of older material. Some of the material is unique while some of it is duplicated in the other two TVPC video collections.

M-4-2-1 TVPC Master Video Collection (1984-1997)

Note: The table and headings below is based on the MS Access database that was used by the TVPC. Videos are numbered A001 to A563 (see the "Type" column).

Collection Access:

Type:	Paper:	Title:	Format:	Duration:	Producer:	Client:	Description:
