### Introduction

This group of archives contains material created by the New Zealand Dairy Research Institute (DRI). This is a collection of materials that has come to the Archives from various sources. The collection is maintained for reference purposes and is not a complete archive of the DRI.

For historical information, see A-3, Dairy Research Institute, 1926-.

The DRI, which was a unit of the Department of Scientific and Industrial Research (DSIR), was initially associated with Massey Agricultural College. It was situated at the College and the College made some of its facilities (such as the laboratories and Library), equipment and stock available to the DRI for its work. Some DRI staff did both teaching and research for the College. This association with Massey Agricultural College ceased in later years.

The policy of the DRI was controlled by a Dairy Research Management Committee of the Research Council. Expenses of running the DRI were borne jointly by the Dairy Produce Board and the DSIR.

With the formation of the Fonterra Co-operative Group on 16 October 2001, the New Zealand Dairy Research Institute (NZDRI) became a subsidiary of one of the world's largest dairy companies, and was renamed the Fonterra Research Centre (FRC) on 1 June 2002.
