

Massey University Statistics Scholarship

Scholarship Regulations

Focus

Statistics

Level of Study

Undergraduate

Purpose

The Massey University Statistics Scholarship supports students who are achieving well to study further in statistics

Value and Tenure

The value of the scholarship is determined each year from the interest earned on the capital. It would typically be approximately \$2,500.

The scholarship is tenable for one year.

Typical Number on Offer

Typically, one scholarship will be awarded per year.

Eligibility

Applicants must:

- be enrolled full time or part time (a minimum of 60 credits in the year of tenure), by either internal or distance study mode, in a program including at least one 200 or 300 level statistics (161 prefix) course
- have met the 100 level majoring requirements in statistics
- express a desire to continue their study of statistics

Selection Criteria

The selection will be based on:

- achievement in 100 level statistics courses such as 161.111
- demonstration of a desire to continue studying statistics

Selection Committee

The scholarship is awarded by the University Scholarships Selection Committee based on recommendations from the Statistics Programme Director, Massey University.

Conditions of the Scholarship

The scholarship may be held concurrently with any other bursaries or scholarships, provided that the rules of the other award allow this.

Payment will be made in two instalments upon confirmation of enrolment in semesters one and two, following the official withdrawal dates for these semesters.

On occasion this scholarship may be split between two equally deserving candidates.

The Committee may decline to award any scholarships in any year if there are no applicants of sufficient merit to warrant an award.

At the discretion of the University, all, or part, of the annual interest may be reinvested in order to maintain the value of the capital fund or the value of the award for subsequent years.
