School of Nursing: Contact details

Every Bachelor of Nursing student assigned to a health care agency to gain clinical experience will also have been allocated a named Clinical Teaching Associate (CTA). Whenever agency staff members have any questions about the BN programme, the requirements of clinical teaching and learning, the support provided by the CTA, or concerns about the student's competencies, the best way to get an answer is to approach the CTA allocated to your area. If an issue needs to be resolved prior to the CTA's next visit, ask your student for the contact details so you can contact the CTA via phone.

If you have difficulties contacting the allocated CTA, the following staff can be contacted:

- **For the Albany Campus:**
Jenny Green
Professional Clinician_
