BE A CRITICAL THINKER. BE A PROBLEM SOLVER. BE GLOBALLY AWARE. STUDY ARTS.

BE CHALLENGED

Studying the arts will help inspire your intellectual passion. Our range of qualifications offers a wide range of subjects that will ignite your imagination, enable you to think critically and help you to apply what you learn in the real world. We will challenge your thinking and enable you to be more creative, more innovative and more adaptable. We will teach you valuable skills that allow you to connect with your work, your community and your world.

WHAT ARE THE ARTS?

The arts – which include the Humanities and Social Sciences – are the study of people: how we think about, interact with and make sense of the local, national and global communities we live in. We ask the big questions: What does it mean to be human? What makes us think and act the way we do? How are different communities organised and governed? How do we make sense of the world we inhabit? That world is rapidly changing. Studying with us means you're in the driver's seat and in control of your education. At Massey you'll develop critical, analytical and creative skills – and the abilities to evaluate evidence and argument, and make informed choices – so you can move into the future with confidence.

WITH OUR ARTS OFFERINGS YOU:

- > Improve your analytical, creative and practical skills that can then be applied in any career
- > Develop valuable skills in critical thinking and communication, analysis and research. Study languages and cultures and participate in an increasingly interconnected world.

WHY STUDY ARTS, HUMANITIES AND SOCIAL SCIENCES AT MASSEY?

With more than 25 subjects on offer, passionate and friendly lecturers, our world-class distance-learning programme, and access to a range of multi-media learning environments that are engaging and interactive, Massey's arts qualifications suit varied interests, lifestyles and academic goals.

STAND OUT FROM THE CROWD

We will engage your curiosity and help you learn to challenge the status quo. We produce well-rounded graduates who are aware of the world around them, and who lead and add value to their organisations and communities. In a changing world where adaptability and flexibility are valued, our graduates possess the critical thinking, problem-solving and communication skills that are in demand. Today.

OUTSTANDING LECTURERS AND INCLUSIVE CLASSROOMS

You will learn with accomplished international scholars and award-winning lecturers who have a welcoming and inclusive teaching style. We have smaller class sizes where your voice will be heard and your particular academic strengths and needs will be acknowledged. We provide extensive learning support services such as mentoring, essay help and study skills workshops.

CAREERS

In a 2014 survey, a significant number of employers said the BA is relevant to today's business environment. Transferable skills such as problem solving, critical thinking and communication - which you will learn in your BA - will enable you to thrive in modern-day business.

Studying a BA at Massey will ensure you develop these skills and make you ready for the jobs of the future.

3 YEARS FULL-TIME STUDY OR EQUIVALENT PART-TIME

BACHELOR OF ARTS BA

A GOOD FIT IF YOU

- > Are curious about humanity
- > Are keen to explore why we are the way that we are
- > Want to gain skills for life while studying something you are passionate about

BE A CRITICAL THINKER. BE A PROBLEM SOLVER. BE CURIOUS

With a Massey BA, you can focus on subjects that you enjoy, while learning to be a creative, critical and independent thinker. You'll also get the valuable skills today's employers are looking for.

WHAT IS IT LIKE?

A Massey BA is your passport to discovering, questioning and understanding what it means to be human, across societies and civilizations past and present. Celebrate and learn from humanity – our ever-evolving richness and diversity, our conflicts and cataclysms, our triumphs of art and knowledge.

IT MEETS YOUR NEEDS

Our refreshed BA will deliver what you – and employers – are looking for. How do we know? We asked hundreds of employers and Massey graduates about the value of a BA and designed a new core curriculum based on their responses.

Our new BA core curriculum is designed to:

- > Give you the transferable skills demanded by employers
- > Position you for any career path you choose
- > Be intellectually stimulating
- > Offer you a rich diversity of subjects
- > Complement your major(s) and/or minor(s)
- > Help you make sense of and engage with the wider world

GRADUATE A STEP AHEAD OF THE REST

In the global marketplace of the future, people who thrive in ever-changing environments will be in demand. Massey's refreshed BA will explicitly develop your skills in critical thinking, communication and problem-solving. Your ability to engage effectively with others, and contribute to society in positive and meaningful ways, will be more important than ever. You'll graduate ready to take on the world.

DISCOVER A WHOLE NEW WORLD

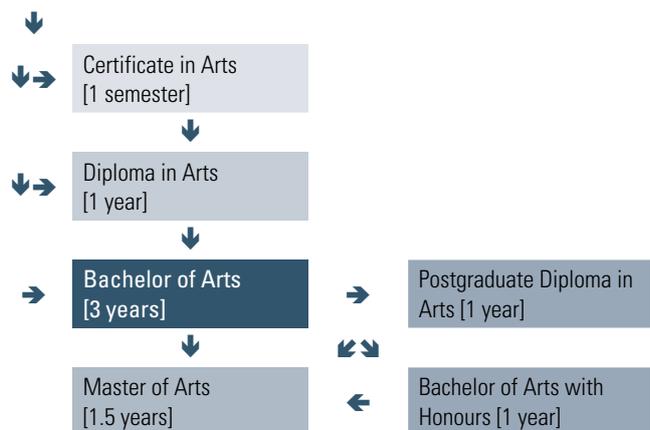

You'll be introduced to new ways of making sense of the world. Your assumptions and ideas will be challenged. Your ability to make informed choices, evaluate evidence and construct reasoned arguments will be strengthened. And you will use your intellect and imagination to generate imaginative solutions to complex local and global challenges.

FIT STUDY INTO YOUR LIFESTYLE

If studying on campus is not an option for you, Massey's distance learning offering is a great choice. Or you could combine the two, taking some courses on campus and some by distance. Massey is a world leader in distance education. You will experience multi-modal interactive learning platforms and 24/7 library services. Your study will fit with your lifestyle and your commitments. Whatever your circumstances, we've got you covered.

PATHWAY TO POSTGRADUATE STUDY

ENROL IN...

JON BRIDGES Producer of Seven Days

My BA and MA have helped me enormously as a television producer, author, radio host and columnist. I've learnt how to communicate, exercise critical thinking, and read and write text as diverse as emails and comedy scripts.

TYPICAL PATTERN FOR A BA DEGREE

As part of a BA degree you must complete five compulsory core courses in writing, critical thinking and citizenship. Below is a typical pattern...

Year 1	Year 2	Year 3	
230.110 Tūrangawaewae: Identity and Belonging	230.210 Tū Rangaranga: Global Encounters	230.310 Tū Tira Mai: Practising Engagement	
230.111 Tū Kupu: Writing and Inquiry	139.239 Literary Landmarks	139.3xx English	
230.112 Tū Arohae: Critical Thinking	139.2xx English	139.3xx English	
139.139 Introduction to English Studies	139.2xx English	139.3xx English	
139.1xx English	Elective	139.3xx English	
Elective	Elective	Elective	
154.1xx Media Studies	154.2xx Media Studies	Elective	
154.1xx Media Studies	154.2xx Media Studies	154.3xx Media Studies	
120 credits	120 credits	120 credits	
Compulsory	Major	Minor	Elective

MAJORS AND MINORS

The BA offers you the opportunity to specialise in majors and minors in the subjects listed on the right. All subjects available as majors in Massey University's BA degree are also available as minor subjects, except for Business Psychology. You can also study minors from the Bachelor of Business or the Bachelor of Science. It is recommended that all students include a minor subject in their BA.

Information about the availability of majors and minors is on our website: massey.ac.nz/ba Our website is updated throughout the year, so it's best to check for updates regularly.

All BA majors require nine courses, including at least one 100-level course, two 200-level courses and four 300-level courses. All BA minors require five courses, including three courses above 100-level, with at least one course at 300-level. There are required courses in some majors and some minors, so when selecting your major and your minor, please read the regulations for those subjects carefully.

BUSINESS PSYCHOLOGY

A major of the BA

A GOOD FIT IF YOU

- > Want to help businesses improve their team culture
- > Want to know what makes you and other people tick
- > Want the flexibility to follow your passions
- > Have wide-ranging interests
- > Seek new solutions to problems

BUSINESS AND PSYCHOLOGY - YOUR POWERFUL CAREER COMBINATION

Combine your strong business sense with deep insights into human behaviour, and you're all set for an amazing career.

WHAT'S IT LIKE?

STAND OUT FROM THE CROWD

Massey's BA (Business Psychology) draws on leading expertise from business and psychology to set you apart from the rest. The BA (Business Psychology) is taught in collaboration by psychology and business lecturers and applies psychology to the world of business. It will develop your understanding of how people affect and are affected by, organisational culture, human resources and management. Your understanding of human attitude and behaviour will be a distinct advantage in your ability to drive business growth.

THE ONLY PROGRAMME OF ITS KIND IN NEW ZEALAND

People are integral to the success or failure of any business. Massey is the only New Zealand university offering a major that combines psychology with the human side of business.

USE YOUR SKILLS TO EXCEL IN BUSINESS

Enhance your employability with a powerful skill-set. By studying business psychology within an arts degree, you will gain a comprehensive knowledge of business and psychology, as well as broad transferable communication and analytical skills integral to any career. This diverse mix of skills will enhance both your work-readiness and your world-readiness.

CAREERS

WHERE CAN A BA (BUSINESS PSYCHOLOGY) TAKE YOU?

Business psychologists often work as consultants. They can meet with business leaders and management to assist with improving personnel strategies, including hiring methods and training programmes, and evaluating the success of the organisational structure.

OUR GRADUATES WORK AS:

- > Human resources managers
- > Real estate account managers
- > Employment consultants
- > Careers counsellors
- > Training and development providers
- > Human factor researchers
- > Retail directors

CHINESE

A major of the BA

A GOOD FIT IF YOU

- > Are interested in different people and cultures
- > Are good with languages and keen to learn a new one
- > Want skills that can take you all over the world

BE A LEADER IN THE WORLD'S GLOBAL MARKETPLACE

Understanding the language and culture of China can unlock the door to a lifetime of exciting careers.

WHAT IS IT LIKE?

Understanding Chinese culture and language will help you establish your career, whether you're interested in foreign diplomacy, business or finance. The relationship between China and New Zealand grows stronger every year. China is a core global player at the hub of the Asia-Pacific region, and a leader in overseas relations. New Zealand is home to many ethnic Chinese.

RELEVANT IN AUSTRALASIAN CONTEXTS

The increasingly multicultural nature of society makes it important to learn about new languages and cultures. It's also important to learn how these languages and cultures interact with your own. Our digital study materials are relevant to our Australasian students, so you'll gain skills applicable to your own communities.

HIGHLY INTERACTIVE

Massey's BA (Chinese) offers Chinese language courses ranging from beginners to advanced. You don't need any knowledge of Chinese to enrol in beginners' courses.

Whether you study on campus or by distance, you'll learn from supportive, passionate academics. Our digital study materials are complete with exercises, audio, videos and presentations. You can access live online tutorials/lectures at different times – evenings, lunchtimes and weekends – to fit with your busy schedule. You don't have to learn on your own, and can practise speaking Chinese in a shared environment.

COMBINES CHINESE CULTURE AND LANGUAGE

You'll learn in a cultural context – because language doesn't exist in isolation. You'll use videos, music and literature to explore social, historical and political developments. Through exploring this context, you'll also explore your own culture and identity.

CAREERS

More skilled graduates in Chinese are needed to work in areas such as:

- > Diplomacy
- > Health care
- > International business
- > Secondary teaching
- > Tourism
- > Immigration and customs
- > Foreign affairs

If you're planning a career in these areas you're encouraged to include Chinese in your degree to give yourself a competitive edge in the job market.

■ DANIEL EGGINK Bachelor of Arts Linguistics/Chinese Education Sector, China

Massey has been a valuable and informative part of my life. It was at Massey that I did my double major in linguistics and Chinese studies. It was at Massey that we grappled with issues of language, culture, power, and resources as well as their distribution throughout society. Before starting my studies I knew next to nothing of China. Massey, in a very real way, opened the door for me to come to China, and it was also where I met my wife. I found my lecturers to be professional and inviting. They each in their own way taught to a very high standard. They pushed us to think for ourselves and as a result I have also remained friends with a good number of my lecturers.

I'm now in the Yunnan state working both in the education sector as well as aiming to work long term in minority language documentation, literacy and translation work. Massey has helped open my eyes to the diversity of languages and people. It has done this through the learning of another language. It has opened these doors for me and I believe it will for you too.

CLASSICAL STUDIES

A major of the BA

A GOOD FIT IF YOU

- > Want to gain an insight into two of the most fascinating civilisations in history, the Greeks and the Romans
- > Are interested in the ancient roots of modern Western civilisation
- > Want a rich and challenging classical education that will make you very appealing to employers
- > Want to follow your passion and enhance your future at the same time

ENHANCE YOUR FUTURE BY STUDYING THE PAST

With a BA (Classical Studies) at Massey you will study the past, understand the present and help build the world of tomorrow.

WHAT IS IT LIKE?

GAIN A DEEP UNDERSTANDING OF 21ST-CENTURY CULTURE

Knowledge of ancient Greece and Rome is essential for an understanding of our own modern civilisation. Through their language, philosophy, science, medicine, law, political institutions, art and architecture, the Greeks and Romans had a profound and lasting influence on world culture. They also created and developed nearly every genre of Western literature.

With a Massey BA (Classical Studies), you can trace meaningful connections between classical antiquity and our own 21st-century civilisation.

YOU CHOOSE WHAT YOU STUDY

Classical studies is interdisciplinary - you can study what you enjoy, and explore subject areas that spark your interest. You can explore the classical world from many angles: literature, history, art, mythology, religion, war, sexuality, and interaction with other civilisations such as Egypt.

FOLLOW YOUR PASSION AND ENHANCE YOUR FUTURE

With a Massey BA (Classical Studies) you can take a variety of courses to suit your interests, and acquire and develop a diverse range of skills. Our evidence for the ancient world is challenging; it is sometimes fragmentary, sometimes obscure, often biased or distorted. At Massey you will make sense of it through argument and interpretation.

WHY DO YOUR BA AT MASSEY?

Massey offers passionate and friendly lecturers, a world-class distance-learning programme and multimedia learning materials.

■ SASHA UNVERRICHT Bachelor of Arts (Classical Studies)

While I have a science background and completed a DipSciTech, my BA in Classical Studies opened my eyes to the incredible ancient world that once existed. The freedom to express myself and my growing appreciation of ancient society has been a highlight of this major. Few areas of study provide that freedom and such vibrant and effective lecturers, eager to hear a student's unique take upon the subjects they teach. The ability to conduct in-depth research and convey that understanding in a clear meaningful way is a skill this major engenders as well. The ancient world is a fascinating, relevant area of study; the ancients' philosophy and wisdom never age, and history has a tendency to repeat itself.

CAREERS

The study of classics fosters critical thinking, research skills, and organisational techniques, together with the broader understanding of our culture. These skills can lead to careers in any of the fields below, as well as many others.

- > Drama
- > Foreign affairs
- > Journalism
- > Libraries
- > Museums
- > Public relations
- > Teaching
- > Trade and industry
- > University administration

CREATIVE WRITING

A major of the BA

A GOOD FIT IF YOU

- > Are seeking opportunities to get creative, get writing and get published
- > Want practical writing experience in a range of genres
- > Enjoy critical and creative thinking

UNLOCK YOUR IMAGINATION

Unlock your imagination, expand your thinking and polish your writing with Massey's BA (Creative Writing).

WHAT IS IT LIKE?

Inspiration, communication and vocation are at the heart of Massey's exciting BA (Creative Writing).

It offers you the chance to develop your writing so that it's pitch-perfect for a variety of audiences. You'll enhance your critical thinking and master a wide range of transferable communication skills while pursuing your own creative vision.

CHOOSE YOUR CANVAS

Creative writing offers you flexibility in writing original work in a variety of genres: learn to write fiction, scripts for the stage and screen, poetry, creative non-fiction, life writing and travel writing.

LEARN FROM PUBLISHED AUTHORS

Our award-winning teachers are also internationally acclaimed writers who teach from their own first-hand experience in moving from idea to page, polishing their work and sending it off to be published or performed.

GET REAL

Your third year has a vocational focus: you'll produce a working manuscript of your own writing. You also have the opportunity to gain hands-on editing and publishing experience or facilitate a creative writing arts project in your local community.

GET PUBLISHED

Students who have taken our creative writing courses have gone on to publish poems, stories, essays and books as well as winning some of New Zealand's top writing prizes. Why not join them?

**CAREERS**

A Bachelor of Arts (Creative Writing) is one of the most creative and enriching degrees you can do. Employers seek out BA students for their lateral and analytical thinking, communication skills and creative ability. There are various possibilities for creative writing graduates, including:

- > Writing for television, magazines, blogs or the book-publishing industry
- > Corporate or non-profit freelance writing
- > Creative arts project coordination
- > Inter-arts collaboration for arts festivals
- > Writing for public relations
- > Creative writing in advertising
- > Teaching
- > Performance-related writing and production
- > Writing and advising on Government policy
- > Writing for social media

■ **LECTURER PROFILE THOM CONROY** Senior Lecturer in Creative Writing
 Thom's second novel, *The Salted Air* was published in 2016 (Penguin-Random House). His first novel, *The Naturalist*, was an historical novel featuring the life of the historical figure of Dr Ernest Dieffenbach (2014 Penguin-Random House). He also published a collection of essays from New Zealand writers entitled *Home* with Massey University Press in 2017. His short fiction has appeared in various journals in New Zealand and abroad, including *Landfall*, *Sport*, *New England Review*, *Alaska Quarterly Review*, and *Agni*. Thom's fiction has been recognised by Best American Short Stories 2012 and has won various other awards, including the Katherine Ann Porter Prize in Fiction and the Sunday Star-Times Short Fiction Competition. In 2013 Thom received a Vice-Chancellor's Award for Teaching Excellence.
 Thom teaches on several creative writing courses in the BA (Creative Writing) and is just one of our award-winning lecturers.

DEFENCE STUDIES

A major of the BA

A GOOD FIT IF YOU

- > Wonder why wars start, who draws the battle-lines and why military force is used
- > Want to understand why war seems to be an unavoidable part of human existence
- > Want a career that contributes to world peace and stability
- > Seek new solutions to world problems

GRADUATE IN HIGH DEMAND

With Massey's Bachelor of Arts (Defence Studies), you'll be a sought-after graduate in a field that's integral to the safety of New Zealand.

WHAT IS IT LIKE?

Massey's Bachelor of Arts (Defence Studies) offers industry input, practical experience and specialised knowledge to develop the skills employers seek.

GET A POWERFUL COMBINATION OF SKILLS

You'll follow a unique programme that combines the study of modern defence studies and military history with broad and transferable critical-thinking skills.

THE ONLY MAJOR OF ITS KIND IN NEW ZEALAND

The contemporary world of modern defence is the core of this specialised major. You'll examine its impact on media, technology and conflict resolution at local and global levels. Massey is the only university in New Zealand where you can study defence studies and military history at undergraduate level.

LEARN FROM THE BEST

Massey has long delivered New Zealand's only defence studies programme. You'll be taught by staff with academic knowledge in the area and/or military, defence and security experience.

The BA (Defence Studies) is designed in collaboration with an advisory board of New Zealand's top defence and security officials. Our programme partners are government agencies that contribute to national, regional and global security, as well as peace and humanitarian aid initiatives. You may have the opportunity to do an internship with one of these agencies.

YOU CHOOSE WHAT TO STUDY

You can choose from a mix of military history, strategy, tactics, intelligence, command and technology courses. These courses aren't just for people working in the defence forces, they're for anyone interested in understanding the world of modern defence.

CAREERS

There's increasing demand for defence professionals, both military and civilian. Employers are looking for people with the intelligence, initiative and determination to work in a wide range of complex defence environments.

You could work not just for the military, but also in areas such as public education, peacekeeping and intelligence. These roles are integral to the safety of New Zealand, and the demand for qualified people who can fill these is exceptionally strong.

Get ready for a great career in New Zealand or the international community, in a broad range of areas such as:

- > Civil defence and disaster relief
- > Diplomacy and conflict resolution
- > Peacekeeping and truce monitoring
- > Policy analysis
- > Education
- > Journalism and the media
- > Management and planning
- > Politics

ECONOMICS

A major of the BA

**A GOOD FIT IF YOU**

- > Are interested in the effects the economy has on our everyday life, culture and the environment
- > Want to figure out how to make the world a better place
- > Want a strong grounding in economics to take into the workplace

BECOME A LEADER OF THE FUTURE

Succeed as a professional in the private for-profit, not-for-profit or public sector with a Massey BA (Economics).

WHAT IS IT LIKE?**GET SKILLS FOR YOUR PERSONAL AND PROFESSIONAL DEVELOPMENT**

There's much more to economics than you might think. With a BA (Economics) at Massey, you will look at how businesses decide what to produce and how many people to employ, investigate how people decide what to consume, and learn about big-picture world economics. Economics is concerned with how to allocate scarce resources to competing ends, and you will get a good understanding of the implications of the choices made.

A BA (Economics) degree from Massey will help you in your own decision-making, and in better understanding developments in the economy and society in general. It offers ways of thinking about the world that let you make the best of what you have, and improve on it.

TAKE A FLEXIBLE APPROACH TO YOUR DEGREE

Massey's BA (Economics) gives you flexibility in the subjects you study. You will gain a strong grounding in the core elements of micro- and macro-economics. You will build on this by choosing from a selection of other subjects (electives), including quantitative methods,

international economics, international trade in agri-food products, natural resource and environmental economics, land economics and development economics.

BE SOUGHT-AFTER BY EMPLOYERS

Massey's economics programme has been acknowledged by employers for its quality and content. When you complete your degree, you can join our graduates with jobs in prestigious organisations in New Zealand and around the world. Our graduates are sought-after by major public and private sector employers.

CAREERS

The skills and knowledge of trained economists are in hot demand by the public and private sector, large and small firms, large international agencies, schools and universities, economic policy-makers and social organisations.

You might work as any of the following:

- > Agricultural economist
- > Business analyst
- > Economic consultant
- > Energy research officer
- > Environmental economist
- > Health economist
- > International economist
- > Microeconomics analyst

Treasury, the Reserve Bank and the World Bank all recruit economics graduates. But your BA (Economics) can also be the gateway to employment in many other areas, such as management, planning, politics, education, finance and banking, journalism or the media. You can design your economics major to meet your own interests and career objectives.

EDUCATION

A major of the BA

A GOOD FIT IF YOU

- > Are interested in how people learn and develop
- > Want to understand more about social and cultural aspects of education
- > Are considering teaching or developing policy
- > Have a passion for a particular subject and want to explore it in depth

EMBRACE LEARNING AND DIVERSITY

Pursue your passion for education with Massey's Bachelor of Arts (Education).

WHAT IS IT LIKE?

Massey is in the world's top 150 universities for education. The Massey BA (Education) delivers skills and strategies for learning, from the sociological to the philosophical. You'll explore the developmental and cultural factors that influence approaches to learning, and gain transferable skills that will serve you personally and professionally.

EXPAND YOUR SKILL SET

A BA (Education) will develop your ability to analyse, articulate and disseminate ideas that incorporate a range of viewpoints. You'll engage with the research that examines how we learn, what we learn, and how we transform that learning into action.

EXPLORE YOUR INTERESTS

The range of issues in education is vast, yet you'll be able to explore topics of your choice in depth. Whatever inspires you, a major in education gives you access to a wide range of learning experiences to hone your abilities and enable you to engage positively in any context.

YOUR QUALIFICATION OPTIONS

Please note that the Bachelor of Arts (Education) does not qualify you to be a teacher in New Zealand. If you want to be a teacher, you will also need to take a postgraduate teaching qualification. Please explore your options in our education pathways tool massey.ac.nz/education-pathway

CAREERS

A Bachelor of Arts (Education) provides the foundation for a range of careers in areas such as policy, professional practice, management and teaching. Our graduates can be found in many industries working as:

- > Health professionals
- > Professional educators/teachers
- > Expert administrators
- > Management executives
- > Network administrators
- > Sales and marketing managers

EDUCATIONAL PSYCHOLOGY

A major of the BA

**A GOOD FIT IF YOU**

- > Have ever wondered how people come to understand their world and how they learn
- > Are interested in applying psychological understandings in educational settings to enhance learning
- > Want to make a positive impact for tamariki/children, rangatahi/youth, and whānau/family in schools and other educational contexts

EDUCATIONAL PSYCHOLOGY: LEARN, DEVELOP, ACHIEVE

With a Massey BA (Educational Psychology), you will become involved with the understanding and promotion of learning and development.

WHAT IS IT LIKE?

With Massey's BA (Educational Psychology) you will explore lifelong ako/ learning and teaching through an understanding of cultural, cognitive, social, behavioural and emotional aspects of learners and teachers.

At Massey, educational psychology is:

- > The application of Western and Māori psychological knowledge in education and human development
- > A science that seeks to understand, and an art that seeks to apply those understandings in the real world, to help learners realise their potential.

You will learn about the complex relationships between learners and their environment. You can choose from a wide range of courses that reflects the diversity of psychology and education.

The types of questions you will consider in the BA (Educational Psychology) include:

- > How can we make learning more effective?
- > What are the social mediators of thinking, learning and development?
- > How can teachers best meet the learning needs of a diversity of learners?
- > What factors help ensure educational success?
- > How do we support development of positive behaviours for learning?
- > How do we reduce learning difficulties?
- > How do we best support learners with disabilities?

Educational psychology looks at what supports and hinders learning, and informs policy and practice in education systems. Massey's BA (Educational Psychology) will equip you with transferable skills that include research, analysis, communication and problem-solving.

This qualification can be a strong foundation for postgraduate qualifications in teaching, psychology and educational psychology.

Massey is ranked in the world's top 150 universities for education in the Quacquarelli Symonds (QS) ranking.

CAREERS

You could find yourself working in:

- > Education and special education
- > Youth support and mentoring
- > Youth justice support
- > Community organisations with an education and/or community support focus
- > Psychology (as a psychologist with additional postgraduate study)

ENGLISH

A major of the BA

A GOOD FIT IF YOU

- > Love to experience amazing writing
- > Want to understand how words and narratives shape society
- > Are keen to develop expertise in analysis and communication

UNDERSTAND HOW WORDS SHAPE OUR WORLD

With a Massey BA (English), you can develop your passion for literature, studying how great writing has shaped identity, culture and society.

WHAT IS IT LIKE?

STUDY GREAT TEXTS FROM THE PAST AND PRESENT

Massey's BA (English) offers you thorough coverage of great literature in English, from Shakespeare to the present day. Our courses are taught by active researchers who share your love of literature: they'll introduce you to amazing writing and the reasons why it matters.

THINK DEEPLY ABOUT THE POWER OF LANGUAGE

A Massey BA (English) gives you tools to understand how literature helps create the world we live in. You'll explore the ethical and social power of literary language and rhetoric, helping you to think deeply about the world and your place in it.

GET AN APPLIED EDGE

Choose from a select range of courses where you can use your English skills in more creative and applied ways. Choose to expand the horizons of your major by taking a course in creative writing, theatre studies or public and professional writing.

EXPRESS YOUR INSIGHTS

You'll get excellent training in expressing yourself in a range of written, digital and oral forms. You'll develop specialised skills in reading and writing that are transferable into any professional career.

CAREERS

Your love of literature and writing can take you into a range of professions where literacy, critical thinking and communication skills are highly valued. Employers appreciate the ability of BA (English) graduates to research effectively, analyse rigorously and communicate with style.

Through studying English you will develop a set of flexible interpersonal and professional skills that ensure you remain agile and able to take on future opportunities. The career paths you'll be able to explore include:

- > Teacher
- > Policy analyst
- > Writer, editor, publisher or researcher
- > Communicator
- > Arts administrator, developer or manager
- > Speech writer, travel writer, blogger or reviewer

■ ANTONIA PREBBLE Bachelor of Arts (English), Actress

As an actress wanting to study, Massey University's distance programme was the obvious choice...

While sitting exams overseas in places like the New Zealand Embassy in Paris is not the norm for most students, it was just one of many ways that Massey's distance offerings were able to cater to my circumstances.

Their systems made correspondence learning as manageable as possible. I could access the impressive library services 24/7, and helpful knowledgeable advice from the staff at the contact centre was only a phone call away.

ENVIRONMENTAL STUDIES

A major of the BA

A GOOD FIT IF YOU

- > Have an interest in environmental issues
- > Are concerned about the sustainability of our way of living
- > Want a degree that fits your environmental interests

TURN YOUR INTEREST IN THE ENVIRONMENT INTO A CAREER

With a BA (Environmental Studies) you'll be prepared for a meaningful and important career.

WHAT IS IT LIKE?

SEE THE BIG ENVIRONMENTAL PICTURE

When you take environmental studies at Massey, you will explore the dynamic relationship between human society and our environment. It's a relationship that is always changing. You will learn to think critically and understand the big picture, rather than seeing environmental questions simply as problems that can be solved easily with a technological fix.

TAILOR A DEGREE THAT'S JUST FOR YOU

With a BA (Environmental Studies), you can choose to explore almost anything to do with the environment, from a scientific, social, cultural or economic point of view. You can also bring together courses from a range of disciplines to create a degree just for you. Your major starts with the course Society, Environment and Place, which introduces you to the diversity of human geography. From there you build up your knowledge by looking at New Zealand environmental issues, then moving on to a course such as Sociology of the Environment.

CAREERS

Our society is becoming more environmentally aware and career opportunities in this area are growing. Many local, regional and national government agencies are employing people to focus specifically on aspects of the environment and how it can be preserved, including:

- > Allocation of water resources
- > Ecological restoration
- > Endangered species management
- > Waste and toxic substances management
- > Weed and pest management

■ KIM ANSTEY Bachelor of Arts (Environmental Studies)

I'm a distance learning student based in Napier. Study this way has given me the flexibility of living in Australia and New Zealand and working my study around raising a young family.

An environmental studies major is a fascinating mix of both social science and science courses which emphasises the importance of examining the big picture when it comes to environmental issues. With New Zealand and the world facing serious issues of declining biodiversity and degraded waterways and soils, there is no time like the present to study this fascinating subject.

I can strongly recommend doing environmental studies at Massey. The courses I have done have been taught by friendly and approachable lecturers who are truly passionate about their subjects. The online delivery of courses is first rate with increasing opportunities for viewing lectures and contributing to discussions online.

Next year I plan to embark upon postgraduate study in sociology with a focus on the environment.

My advice to new students would be: knowledge expands your horizons and gives you the power to influence your future. Go for it.

NOTE: NOT ALL COURSES ARE AVAILABLE
IN ANY ONE YEAR
AVAILABLE FOR INTERNATIONAL
STUDENTS STUDYING IN NZ

GEOGRAPHY

A major of the BA

UNDERSTAND YOUR PLACE IN THE WORLD

With a Massey BA (Geography) you will become a knowledgeable global citizen, ready to apply your skills to the world's pressing problems.

WHAT IS IT LIKE?

GET A WIDE PERSPECTIVE

In the BA Geography you will study how we interact with our cultural, social and physical environments. You will find geography a diverse and dynamic subject, and will study issues such as sustainability, urban development, globalisation and people's lived experiences of their environments.

In stage one of the BA Geography, you will study both human and physical geography.

- > Human geography looks at how space, place and landscape are both the condition and consequence of social processes;
- > Physical geography looks at how natural landscapes take shape and change.

You will gain a solid foundation to understand the world as the product of a combination of social and natural processes.

LEARN FROM A RANGE OF TEACHING METHODS

You can go on to specialise in either human or physical geography, or study a combination of both, and will benefit from interactive classroom and distance teaching, field trips and training in a range of research methods. You will then take more advanced human geography courses, and expand on the themes established at stage one. You'll learn about urbanisation, state restructuring, globalisation, geopolitics, agrifood, resource management and consumption. You will gain a global perspective from courses that draw on international case studies and examples, while maintaining a particular focus on New Zealand's place in a changing world.

GET OUT INTO THE FIELD

In advanced physical geography, you will explore our dynamic natural landscape, focusing on rivers, glaciers, coasts and past environments. These landforms are explored in depth through extensive fieldwork-based courses.

DEVELOP IMPORTANT CAREER SKILLS

Geography will prepare you to be a thoughtful and knowledgeable local and global citizen. You will develop important career skills in research, spatial analysis, and evidence-based examination of the pressing issues facing New Zealand and the world today.

CAREERS

With a BA (Geography) you can choose from a wide range of careers including:

- > Conservation and environmental research
- > Energy development
- > Resource management
- > Forestry
- > Public service
- > International development and diplomacy
- > Local and regional councils
- > Business and market research
- > Teaching
- > Tourism
- > Journalism

HISTORY

A major of the BA

A GOOD FIT IF YOU

- > Are interested in learning about how the past affects the way we live now
- > Enjoy subjects like English, history and social studies at school
- > Are keen to know more about the history of a specific area or region

LEARN TO LOOK AT THE WORLD WITH A NEW PERSPECTIVE

Studying history will give you a new appreciation for the world around you.

WHAT IS IT LIKE?

History is a subject as large as our recorded past. Our cultural heritages, literature, arts, religions, politics, economics, social behaviours, buildings and landscapes all derive from past influences.

Studying history gives an understanding of where we have been and how the world has changed over time. It gives an appreciation of how people have faced challenges at different times, and all with the benefit of hindsight.

LOADS OF CHOICES - PICK WHAT INTERESTS YOU

With a history major you can shape your degree around your interests. You can make your history major specific to one particular area, like New Zealand and the Pacific, or study a particular era, like the medieval period, or the 20th century. You could focus on a specific theme, such as politics, sport or social history, or just pick what takes your fancy. The breadth of courses offered lets you explore your own particular interests and will give you a broad and well-rounded major.

RELEVANT TO THE PAST, PRESENT AND FUTURE OF NEW ZEALAND

Through history we can understand our past, explain our present and be better equipped to predict the future. At Massey, our history programme is focused on New Zealand history and New Zealand's place in the world. We have the strongest focus on New Zealand history of any university in the world and New Zealand themes are central to our academics' research. This combination means you will graduate ready to shape the future of New Zealand and the world.

HAVE ACCESS TO TOP RESOURCES

Whether you study on campus or by distance, you will have the best resources at your fingertips. We are committed to ensuring that our reading materials are engaging and available online 24/7, and we keep our class sizes small to ensure you benefit from the wealth of knowledge that our academics have to offer.

UNCOVER YOUR OWN HISTORICAL STORIES

Our expertise expands across a variety of fields including medieval, military, British and European history. In addition, our undergraduate degree leads to an innovative honours programme that will set you up to carry out your own historical research. So no matter what you're interested in, we have the tools that will allow you to tell the stories you want told.

CAREERS

A history major prepares you for many career options, including:

- > Archiving
- > Editing
- > Journalism
- > Policy analysis
- > Teaching
- > Research management
- > Administration

■ MICHELLE WHITMORE Bachelor of Arts (History)

Managing Director at Metro Marketing

Doing a history degree taught me to think analytically and to present information in a considered and controlled way. I learnt how to research and construct an argument or point of view, and to present this with a logical introduction, body and conclusion.

Since graduating my degree has taken me all over the world and moulded a career full of interesting projects and experiences. I've written a history book for the centennial celebrations of a girls' school in Marton. I've worked overseas writing quality manuals for a company pursuing international quality standards. And I've uncovered my love of marketing through my previous role as Marketing Manager at EziBuy.

Nearly 20 years on I still love what I do and have my own business, Metro Marketing. To this day, skills gained during my BA resonate with my work like how to think clearly and logically, and to present information in a 'no nonsense' and digestible manner, to not write fluff and always give impetus to spelling and grammar.

JAPANESE

A major of the BA

A GOOD FIT IF YOU

- > Are interested in different people and cultures
- > Are good with languages and keen to learn a new one
- > Want transferable skills that can take you all over the world

GAIN FASCINATING INSIGHTS INTO JAPAN'S RICH CULTURE AND HISTORY

Let your love of languages give you an edge in the international job market.

WHAT IS IT LIKE?

Massey's BA (Japanese) will equip you with advanced language skills in spoken and written Japanese, coupled with a solid understanding of the cultural background underpinning this complex and powerful society. With your BA (Japanese), you can expect to acquire competence approximately equivalent to Level Two of the internationally recognised Japanese Language Proficiency Test (Nihongo Noryoku Shiken). No prior Japanese language learning is required. However, if you have studied some Japanese previously, please contact the programme coordinator for advice on the appropriate entry level.

RELEVANT IN A GLOBAL CONTEXT

The increasingly multicultural and global nature of society means it is important to learn new languages and about other cultures, and how they interact with, and are affected by, your own and other cultures. The BA (Japanese) shows you the world from the Japanese perspective, and how Japan has interacted with the rest of the world.

INTERACTIVE STUDY AND SUPPORTIVE TUTORS

Whether you study on campus or by distance, you will learn from supportive, passionate academics who produce study materials complete with digital exercises, audio, videos and presentations. Your lecturers deliver regular live online tutorials to give you opportunities for real interaction in Japanese.

They ensure that you don't have to learn on your own and that everyone can practise speaking Japanese in a shared environment.

UNIQUELY COMBINES CULTURE AND LANGUAGE

Language does not exist in isolation, and becomes more powerful when it is learnt in a cultural context. All courses in the programme including specific courses on Japanese history, culture, society, film and literature allow you to understand Japan better. Through exploring this context, you will also explore your own culture and identity.

CAREERS

With a Bachelor of Arts majoring in Japanese, you will have career prospects in many vital spheres, including:

- > Trade and commerce
- > Business
- > Foreign affairs
- > Policy analysis
- > Education
- > Tourism
- > Aviation
- > Development
- > Disaster management
- > Creative industries

LINGUISTICS

A major of the BA

A GOOD FIT IF YOU

- > Enjoy learning languages or have a curiosity about language
- > Enjoy subjects such as English and drama that work with the written and spoken word

USE LANGUAGE TO DRIVE YOUR CAREER

Massey's BA (Linguistics) will equip you with the knowledge and empathy to lead cross-cultural interactions, growing your ability to drive social change and shape the future of our nation.

WHAT IS IT LIKE?

CULTIVATE YOUR PERSONAL AND PROFESSIONAL DEVELOPMENT

Linguistics is the study of language, its structure and meaning, how it is learnt and used, and what this says about who we are and where we come from.

From interacting with friends to communicating with colleagues, language plays a fundamental role in both our public and private lives. This includes written and spoken communication, problem-solving, and social and cultural awareness. Our lecturers will encourage you to develop a deeper understanding of your own self-identity and social interactions.

SIGNIFICANT TO THE FUTURE OF THE NEW ZEALAND

As the new New Zealand emerges, language remains the most powerful tool for connecting with and understanding our evolving diversity of people and cultures.

Massey's BA (Linguistics) puts a strong focus on personal and applied language use, ethnographic analysis, and language forms and structure. This major will help you develop vital career skills.

SPECIALIST LANGUAGE STUDIES AND OPTIONS AVAILABLE

Whether you're intrigued by the role of language in forensic situations, digital communities, social media, mother-tongue maintenance, or second-language learning, we have a variety of courses on offer. Our courses are taught by leading lecturers in a range of distinctive research areas.

CAREERS

Language is vital to human communication. The study of linguistics helps you understand the development of language and can lead to an array of careers. We have graduates working in a range of diverse sectors in many varied roles including:

- > Education: ESOL teacher, language teacher, literacy advisor, university lecturer
- > Business, administration and law: communications advisor, interpreter/translator, forensic document analyst
- > Government departments: policy analyst, researcher, cultural adviser, immigrations officer
- > Publishing, journalism, media and advertising: writer/editor, advertising consultant
- > IT: computer analyst/programmer

■ SONJA ZANDER Bachelor of Arts (Linguistics)

Mba'éichapa or hello in Guarani, a native language spoken mainly in Paraguay. As part of my bachelor's degree I was lucky enough to earn credits while investigating this interesting language. On top of this I've looked at forensic linguistics and also studied how babies learn to talk. I'm majoring in linguistics, something that I am passionate about. Linguistics allows us to consider an aspect of life constantly used but overlooked by most people; language. Linguistics focuses on how a language works and what you can tell from the way a person speaks. Luckily for me Massey lets me study by distance learning because I've been living in Argentina for three years, giving me the opportunity to see many of the theories I've learnt put into practice. Everywhere I travel I find myself listening to other people talking and guessing things about their language.

■ STEPH PRINCE Bachelor of Arts (Linguistics) . Publishing Advisor.

I graduated from Massey with a double major in linguistics and media studies. Now I work for a government agency, in a role that specialises in a plain-English approach to communication and education. Linguistics at Massey has given me the skills to help develop the voice of my agency, establishing guidelines on how we write and sound. A top priority is customer safety. My role feeds into this by focusing on how language can positively drive people to make smart choices. My typical day includes considering how language and identity fuel customer engagement, or dabbling in legalese/technical writing - raising awareness of language with multiple connotations. I picked my first linguistics paper by chance at Massey, and it was one of the best decisions I've made!

MĀORI STUDIES

A major of the BA

A GOOD FIT IF YOU

- > Want a strong sense of your own identity and place in the world
- > Want to contribute positively to individuals, whānau, local and national communities
- > Have ever wondered about Māori society, culture and worldviews
- > Want a sound understanding of Te Tiriti o Waitangi, Māori narratives and the significance of te reo Māori
- > Are keen to acquire competency in te reo Māori me ōna tikanga

BE A CONFIDENT AND DYNAMIC AGENT OF POSITIVE MĀORI DEVELOPMENT

With a Massey BA (Māori Studies) you'll become an ambassador of Māori knowledge, and the contribution it can make to problem solving the challenges faced by and within global societies.

WHAT IS IT LIKE?

An understanding of Māori language, culture and Te Tiriti o Waitangi is key to shaping the social, political, and economic future of our nation. With a Massey BA (Māori Studies) you'll acquire knowledge of Māori society and culture, particularly the significance of te reo Māori, whakapapa and korero tuku iho (Māori narratives) to Māori worldviews.

BECOME AN AGENT OF CHANGE

With te reo Māori, Te Tiriti o Waitangi and human rights competencies you'll be able to engage with a range of social, cultural, economic and political structures and processes as an agent of positive Māori development. You'll acquire important connections that will enable you to demonstrate your social responsibility toward Māori and human rights, in ways that are respectful of communities, the environment, and wider society.

APPLY YOUR KNOWLEDGE

Your BA (Māori Studies) will give you the opportunity to apply your knowledge across a range of areas, for example, education, health, research, policy and whānau, hapū, iwi and community development.

LEARN FROM STAFF WHO CARE ABOUT YOU

Our Māori studies programme has passionate staff who are themselves, agents of positive Māori development and closely connected to their own communities. They care about your learning journey, and take their responsibility for helping you very seriously. Learn with us, and we learn together.

CAREERS

Your major in Māori studies will be a great pathway to careers in a range of areas, including:

- > Community work
- > Foreign affairs
- > Māori development
- > Policy analysis
- > Research
- > Teaching
- > Translation services

■ APIRANA PĒWHAIRANGI

Iwi - Ngāti Porou

Studying the Treaty of Waitangi and writing assignments on Māori language, health and politics doesn't sound like the way most professional rugby league players spend their free time, but that was my reality. I studied by distance at Massey University while pursuing a professional sporting career as NRL league player for the Parramatta Eels in Sydney. Over the last five years I was in Australia playing professional rugby league and have come back to join the Vodafone Warriors in Auckland. It was quite tough at times being away. I'd grown up in a very Māori world, at school and home. It was a big change of lifestyle and I missed being around the language and customs, the big gatherings with pōwhiri. My study definitely helped me keep in touch with my culture.

It's good to have a balance in life with study, sport and family. With the training all day, it was good to use my brain. My parents are both teachers and they always instilled in me the value of education. One day I might consider training to become a teacher, but for now I'm concentrating on my current sporting gig with the Warriors.

MATHEMATICS

A major of the BA

**A GOOD FIT IF YOU**

- > Like to think through things logically and analytically
- > Enjoy mathematics
- > Seek new solutions to problems
- > Have a wide range of interests

A GROWING DEMAND FOR YOUR SKILLS

With a Massey BA (Mathematics) you'll advance your analysis and problem-solving abilities within the flexible and critical framework of the Bachelor of Arts degree.

WHAT IS IT LIKE?

A Bachelor of Arts (Mathematics) opens up a world of opportunities. From securing sensitive communications using cryptography, to calculating the geostationary orbit of a satellite, maths is a product of human ingenuity that allows our modern world to exist. With a BA (Mathematics) you'll learn appropriate analytic and numerical methods for problem-solving that can be applied in a range of contexts and industries.

GET THE SKILLS YOU'LL NEED

Your mathematics major will help you develop a wide variety of skills and techniques, especially in calculus and algebra. You'll learn to formulate, solve, restate and resolve problems, and interpret results. You'll also build your knowledge of computational and simulation techniques on computers. You'll learn to communicate and explain concepts effectively with non-

mathematical colleagues. This is a crucial skill, as many careers will take you into a team environment.

LEARN FROM THE LEADERS

Studying the BA (Mathematics) at Massey will give you access to some of the world's top mathematical minds. Massey lecturers and postgraduate students are researching areas such as the modelling of geothermal processes, molecular dynamics, epidemiology, cell growth, celestial mechanics, neuroscience, phylogenetics and evolutionary trees, and the optimal decompositions of information systems. These projects show the generality, versatility and variety of problems offered to mathematically skilled scientists. Your BA (Mathematics) will help you build up the skills and techniques you'll need to be part of projects like these.

CAREERS

As a graduate of the Bachelor of Arts (Mathematics) you'll have the analytical and problem-solving skills that employers are looking for. This could lead to a number of career options in areas including:

- > Finance and banking
- > Market research and big data
- > Public and private consultancies
- > Government departments
- > Research and development agencies
- > Manufacturing
- > Teaching

MEDIA STUDIES

A major of the BA

A GOOD FIT IF YOU

- > Enjoy engaging with media
- > Are creative and would like to make your own media
- > Enjoy subjects such as media studies, English and drama
- > Like to question and debate what you see in the media

CREATE, CRITIQUE AND CONNECT WITH YOUR MEDIA WORLD

Interested in advertising and popular culture? Social media and the blogosphere? Film and cultural theory? Media studies can help you discover how the media shape our society, our culture, our economy and ourselves. The Bachelor of Arts (Media Studies) will give you the skills to translate your knowledge into a professional career in media work in a wide range of industries.

WHAT IS IT LIKE?

Massey's BA (Media Studies) is an exciting discipline that will prepare you for future challenges in an information-rich society. Media studies analyses the production, consumption and content of a range of media including film, social media, television, popular music and smartphones. You will explore the formal characteristics of these media and their social, cultural, political and economic implications.

Media studies is taught through an innovative programme that blends theory with opportunities for creative practice. The skills you will develop with this major are versatile and highly sought-after in many careers, with digital media literacy becoming increasingly important across all sectors.

BE CHALLENGED

- > Explore the ways in which media texts, audiences and users create and circulate meanings
- > Analyse the relationships between media, culture and society and how they influence our views of the world
- > Communicate your findings effectively in speech and writing
- > Tackle open-ended questions where there are no simple right or wrong answers
- > Develop creative and critical approaches to producing media.

BLEND MEDIA THEORY AND MEDIA PRODUCTION

You'll become a media-shaper who can do as well as think. Your lecturers are internationally published experts in their fields, which collectively span the breadth of contemporary media studies. You'll not only learn how decisions on what is communicated, through which medium, can impact on our understanding of world events but also have the opportunity to develop the technical and creative skills involved in the creation of media.

STATE-OF-THE-ART FACILITIES

We offer you access to the latest in digital technology through our new state-of-the-art facilities and online learning system. You'll have opportunities for multi-modal, hands-on learning that reflects the latest developments in media practice to give you skills relevant to today's industry.

SHAPE THE FUTURE OF THE MEDIA WORLD

At the heart of our programme are the study and creation of a variety of media forms. We consider different aspects of the media and their relationships to the historical, social and cultural contexts in which they occur. You'll be encouraged to use lateral-thinking skills to understand the media world and participate in shaping its future.

CAREERS

Media studies can lead to a variety of career options, including those in the list below.

- > Advertising
- > Digital postproduction
- > Film and TV production
- > Web content editing
- > Journalism
- > Public relations

■ TAREQ BRANNEY Bachelor of Arts (Media Studies), Communications Coordinator - Wellington City Mission, Owner - Howie Shoot Pictures

A Bachelor of Arts majoring in Media Studies enabled me to develop knowledge in the areas that I was truly passionate about while also providing me with a meaningful and useful tertiary education. The knowledge I picked up on these courses enabled me to run my own film production business, without having to attend a specialist filmmaking school. Howie Shoot Pictures specialises in promotional videos for small businesses, or not-for-profits.

However, looking back it was the versatility of the BA that I continue to find most valuable. In my current position as Communications Coordinator for the Wellington City Mission, the courses in communications, te reo, business studies, politics and especially English (my minor) are particularly relevant. I am responsible for, or have a role in, most official communications the City Mission has with the public, including our quarterly newsletter and campaign and appeal literature.

PHILOSOPHY

A major of the BA

A GOOD FIT IF YOU

- > Like to ponder the big questions
- > Have ever wondered if you have free will... if God exists... how we know what's right and wrong... how we know anything at all... or what it means to be human
- > Love to discuss and debate
- > Want a relevant and useful degree that will provide you with transferable skills relevant to a wide range of different occupations

YOUR INQUISITIVE MIND CAN MAKE YOU HIGHLY EMPLOYABLE

A Massey BA (Philosophy) will develop your abilities to think and reason, to express your thoughts clearly and concisely, and to critically evaluate complex ideas, all of which will make you a highly employable graduate.

WHAT IS IT LIKE?**THINK DEEPLY ABOUT THE BIG QUESTIONS**

If you are fascinated by the big questions of what kind of beings we are, and how we interact with the world in which we live, then Massey's BA (Philosophy) is the degree for you.

MAKE YOUR POINT AND INFLUENCE PEOPLE

Philosophy isn't just about abstract thinking. Massey's BA (Philosophy) offers you the chance to learn highly applicable and useful skills. Studying philosophy develops your critical thinking skills: your ability to assess whether arguments are rationally compelling, and to make your arguments compelling to others.

You will also learn how to express your thoughts concisely and clearly, how to engage constructively in debate, how to deal with unusual and difficult ideas, and how to look at problems in new ways.

BENEFIT AT WORK AND AT HOME

The intellectual skill of critical thinking is important in the workplace, and is consistently ranked by employers amongst the most desirable attributes in an employee. It helps you in your day-to-day life too, such as when watching the news or reading stories on the internet. Through your study of philosophy you will learn how to understand and evaluate what you read rather than just remembering it, and to become more aware of the reasons why you hold the views you do. A major in philosophy will challenge your thinking and encourage you to continue asking questions.

CAREERS

A Massey BA (Philosophy) gives you experience in handling unusual and difficult ideas, communicating your thinking with clarity, and being aware of the reasons for your views while being flexible and adaptive. You will cope with new challenges as the needs of your work change. That adaptability and the ability to think on your feet will be a big advantage in careers in advertising, journalism, management, policy analysis, research and many more.

These skills are highly prized by employers and this means you can explore a wide range of career options. Recent graduates in philosophy have gone into jobs as diverse as:

- > Advertising
- > Business
- > Computing
- > Journalism
- > Management
- > Policy analysis
- > Publishing
- > Research
- > Teaching
- > Treasury

■ BRANDON YOUNG Bachelor of Arts (Philosophy)

"Philosophy teaches you to think critically and not just accept everything at face value," the 23-year-old says. Now, he understands the importance of asking the right questions and being well informed in order to be able to discuss and argue soundly. The skills he's developed through studying ethics and critical thinking have been useful, for example, in analysing the news media, he says, helping him to query assumptions and generalisations that can mislead, or perpetuate stereotypes, myths and ignorance.

Brandon says despite his initial reservations, the new compulsory core course "Turangawaewae" (or "standing place") has been transformative. He's had his eyes opened to key events in relatively recent New Zealand history he'd never heard of, from the occupation of Bastion Point in the 1970s and 1980s and the 1981 Springbok Tour to gaining a deeper understanding of the Treaty of Waitangi and settlement process. Things all New Zealand citizens should know about, he adds.

He encounters people who scoff at an arts degree. But Brandon thinks more young people will turn away from the "greed is good" mentality and that more are likely to choose humanities and social sciences as societal changes call for more people who can think critically and ethically.

POLITICS

A major of the BA

A GOOD FIT IF YOU

- > Are interested in how decisions are made in society
- > Want a career where you can make a difference to the lives of others
- > Want to understand what is going on in the wider world

BE INFORMED ABOUT THE BIG ISSUES

Studying a BA (Politics) at Massey equips you with the concepts, theories and facts you need to make sense of the world around you.

WHAT IS IT LIKE?

UNDERSTAND THE WORLD AROUND YOU

Politics is about contestations for power and how we make decisions in society - who gets what, when and how - from the local community to the nation and internationally.

Politics is concerned with the conflict of ideas and values. It has to do with who governs, and how and why decisions that affect all of us (such as how much students should pay to study at university or whether the UN should sanction military interventions) are made.

A WIDE RANGE OF TOPICS

With Massey's BA (Politics), you may study topics such as how laws are made in New Zealand, what the rise of China means for the future of global politics, how Select Committees work, what is happening in the Palestine/Israel conflict, or what concepts such as "freedom" or "justice" mean to different people. You might also learn about the main dimensions of key contemporary international conflicts.

SMALL CLASS SIZES AND ENTHUSIASTIC LECTURERS

At Massey, politics is taught in a small interdisciplinary programme where you have regular and close contact with academic staff. Your lecturers are active researchers in their respective fields. They are passionate about the subject matter they teach and bring that enthusiasm to the classroom.

CAREERS

Politics has two big things going for it: it is exciting, and it is relevant. Politics is a degree that can lead to a range of careers, including:

- > Business
- > Diplomacy
- > Finance
- > Journalism
- > Policy analysis
- > Public service

Our graduates are working as researchers, policy advisers, analysts and managers, and in the commercial, industrial, business, media, financial and public sectors. They also work in academia, the NZ Defence Forces, the Ministry of Social Development, the Ministry of Business Innovation and Employment, the Treasury, Air New Zealand, the Reserve Bank, the United Nations, television's Newshub and Amnesty International.

■ AMY THOMSON Bachelor of Arts (Politics)

'My supervisor has given me the confidence to aim high in my professional life...'

My time spent studying politics at Massey has had a huge influence over my life. I'm a big picture person and learning about politics has given me the context for understanding how everything fits together and how what I do during my career will influence the lives of others. So, my degree helped me not only find employment, but to choose the jobs where I can make the most difference to the lives of others.

Studying politics at Massey was made easy by the passion of the faculty for their subject and the support they gave freely, particularly as a postgraduate. The belief my supervisor showed in me has given me the confidence to aim high in my professional life. And finally, the students I met are now friends I can turn to for advice and support when I need it.

PSYCHOLOGY

A major of the BA

A GOOD FIT IF YOU

- > Are interested in people, thoughts, feelings and behaviour
- > Want a career devoted to human welfare

UNDERSTAND MORE ABOUT YOURSELF AND OTHERS

Massey's BA (Psychology) will help you explore how the brain works, and understand how we think, behave and make decisions.

WHAT IS IT LIKE?

With a Massey BA (Psychology) you will explore the thoughts, feelings and actions of individuals and groups in a social and cultural context.

Psychology will help you make sense of the human impact on the world in which we live. At Massey, you can choose from a wide range of courses that reflect the diversity of psychology. You'll learn about the natural, social and biological side as well as research methods and applications of psychology.

Psychology combines:

- > Natural science, focusing on perception, cognition, learning and the biological bases of behaviour
- > Social science, dealing with emotions, individual differences, behaviour and relationships and the wider social context

You will ask questions such as:

- > How do people perceive, learn, think, develop, behave and relate to each other?
- > How does the structure of the brain affect behaviour?
- > What makes people different from each other?
- > How does being in groups affect people's behaviours; how do social groups affect what we do?

A psychology degree will equip you with valuable transferable skills including research, analysis, communication, problem-solving and interpersonal skills.

MARKET-LEADING IN NEW ZEALAND, RECOGNISED INTERNATIONALLY

More research students and clinical psychologists graduate from Massey than any other university in New Zealand. We're connected to a wide range of community and statutory organisations, and produce unique and applied psychology research and training that's recognised nationally and internationally. This strength and expertise enhances the reputation of your degree and ensures your knowledge is relevant to today's society.

APPLIED LEARNING OPPORTUNITIES FOR UNDERGRADUATES

While most universities wait until postgraduate study to offer applied learning, we introduce this in the final year of your degree. We have a broad selection of courses across areas including forensic, experimental and community psychology

that demonstrate how foundational skills can be applied. This better prepares you for further study and gives you a taste for where you might like to specialise.

CAREERS

A major in psychology can provide knowledge and skills relevant to a broad selection of applied psychology areas including clinical, health, education, community, industrial and organisational psychology. These diverse options mean you can study what you are most passionate about and carry that passion forward into your career.

The knowledge of human behaviour and interactions that you will gain from a BA (Psychology) will be useful in many careers including:

- > Counselling
- > Human resources
- > Public health
- > Youth support
- > Policy
- > Rehabilitation psychology
- > Scientific research
- > Special education

■ **DIANE KOTI** Bachelor of Arts (Psychology)
My time spent completing my Bachelor of Arts with a major in Psychology and minors in Māori Studies and Social Anthropology has been beneficial in many aspects and I have achieved more than a university qualification. I've had the opportunity to live the university experience and meet like-minded students who have become life-long friends. My BA qualification also enables a future with better employment options thus benefiting my whānau.

SECURITY STUDIES

A major of the BA

A GOOD FIT IF YOU

- > Want to help keep New Zealand safe
- > Want to make a difference in your community
- > Can look for solutions in tough situations

GRADUATE IN HIGH DEMAND

Massey's Bachelor of Arts (Security Studies) will give you a powerful combination of critical thinking skills and knowledge of global security issues.

WHAT IS IT LIKE?

Our world provides numerous complex and multifaceted challenges to security. These include traditional interstate conflict, the threat of the spread of nuclear weapons, disputes linked to religious differences, control and exploitation of scarce resources, and the impact of globalisation and environmental change.

Management of threats to security is an important dimension of government and public policy. If you are interested in local and global security issues, Massey's Bachelor of Arts (Security Studies) will give you knowledge in this area.

You can take security studies as a major to develop a specialisation, or a minor to complement other subject choices. It's a flexible degree that will equip you for a number of careers.

UNIQUE IN NEW ZEALAND

Massey offers New Zealand's only specialist education in security studies. It examines security challenges such as biosecurity, conflict resolution and cyber-crime at community and government levels. You'll develop broad and transferable critical thinking skills. You'll also have the opportunity to do an internship with government agencies such as Customs or the New Zealand Police.

LEARN FROM THE BEST

Our lecturers have professional and academic experience. Our courses are nationally and internationally respected, scholarly and career-focussed, and well-connected with potential employers. The programme is designed in collaboration with an advisory board of New Zealand's top defence and security officials.

YOU CHOOSE WHAT TO STUDY

The security studies programme is highly interdisciplinary. Your education will draw on the academic knowledge and professional experience of staff from across the University.

CAREERS

With a Bachelor of Arts (Security Studies) you'll graduate in high demand. By learning how people, property and information are protected, you can prepare for a career that's challenging, rewarding and will help make the world a safer place. Knowledge of security can be applied to a range of professions and vocations such as:

- > Government or non-government agencies
- > Commercial companies
- > Security
- > Business
- > Foreign affairs
- > Trade, law
- > Intelligence
- > Border protection
- > Law enforcement

SOCIAL ANTHROPOLOGY

A major of the BA

A GOOD FIT IF YOU

- > Want to further your understanding of our society and the world we live in
- > Seek a deeper understanding of cultural variation and cultural change
- > Want to better understand other cultures and ethnic groups as well as your own

GET A BETTER UNDERSTANDING OF THE WORLD

With a Massey BA (Social Anthropology), you will see the world through fresh eyes.

WHAT IS IT LIKE?

The Massey BA (Social Anthropology) will give you a different perspective on world affairs.

Studying social anthropology will develop your understanding of other cultures and ethnic groups, and show you how your way of life is just one of many possible ways of being human. You will learn to challenge your existing beliefs and put yourself in others' shoes.

STUDY A WIDE RANGE OF SUBJECTS

At Massey you will study topics such as politics, globalisation, inequality, human-environmental relations, human rights, indigenous peoples, racism, visual culture, healing systems, food, gender, and ritual and religion.

GET OUT INTO THE FIELD

Discover how anthropologists study cultural differences through fieldwork that examines societies across the globe, from hunter-gatherers to industrial nation-states. Massey staff and students are currently researching in Asia, the Pacific, Europe, Africa and New Zealand.

CAREERS

The study of people can take you into almost any career path, anywhere in the world. Popular career destinations for social anthropology graduates include:

- > Human rights and social justice
- > Social work
- > Social and commercial research
- > Education
- > Business and industry
- > Government, diplomacy and policy
- > Foreign affairs
- > Overseas aid and development agencies
- > Health care
- > Non-profit management
- > Marketing
- > Publishing
- > Environmental issues
- > Museum curation
- > Art and heritage work
- > Tourism

SOCIAL POLICY

A major of the BA

A GOOD FIT IF YOU

- > Want to know who makes decisions on many of the important issues, such as climate change, poverty and student loans
- > Want to find out about how to influence those decisions
- > Want to contribute to the cause of social justice and better outcomes for people
- > Are interested in debates about rights, freedom, equality and justice

WHAT IS IT LIKE?

If you are fascinated by how and why power, resources and opportunities are distributed within society, then Massey's BA (Social Policy) is for you.

You will gain an understanding of the political, economic, social and cultural factors that influence the development, implementation and evaluation of social policy in Aotearoa New Zealand.

You will study law, politics and the roles of central and local government in a democratic society. This will lead to insights into the relationship between the state, political parties, the judiciary, the legal system and the public in shaping legislation and developing policy.

CAREERS

Your BA (Social Policy) will give you the knowledge and competencies you need to start your career as a policy analyst and researcher. You will learn a range of intellectual and practical skills that will stand you in good stead in the job market.

This qualification opens up a world of opportunity to be involved in influencing a broad number of social issue outcomes (eg healthy housing, youth development, Māori wellbeing, health promotion, gender analysis of policy), not only from a Government-down position, but also from an individual-, community- and society-up perspective.

You will learn to apply your critical social policy analysis skills to a number of decision-making scenarios to result in better social outcomes.

This decision-making can take many forms including a policy, project plan, submission, or even the strategic direction of an organisation.

You could work in areas such as:

- > Research
- > Communications
- > Project management
- > Governance
- > Charitable trusts
- > Social marketing
- > Journalism (critical analysis of social issues)
- > Advocacy
- > Teaching and lecturing
- > Policy analysis - public, private and third sector (NGOs, PPPs, not-for-profit, voluntary and charity organisations)
- > Youth development
- > Community development
- > Politics
- > Government agencies - local, regional and central
- > NGOs - trusts etc (housing, Māori land trusts, health service providers, disability advocacy and support, youth development)

■ DONNA MORGAN BA in Social Policy Master of Applied Social Work student - Massey University

I used to spend many a day getting infuriated about events that I saw on TV, read in the news, or just saw with my own eyes as being unjust or inequitable and finally one day I just decided I needed to do more than simply rant about it. So I enrolled in the BA in Social Policy with the aim of hoping to understand what causes some groups of people to become marginalised in our society, and what I could do to help change it.

Whilst I studied a range of topics from politics, economics, the environment, and issues of development and under development, I also discovered a whole lot about myself and just how some policies have shaped my life - and I wasn't impressed with some of it!

I have also moved into areas concerning youth wellbeing, in particular issues related to their education and disengagement from mainstream and youth unemployment. I am currently working with a small community group who are hoping to develop an initiative to help transition youth into work, in particular those who are NEETS (not in education, employment or training), to support and mentor them when they are starting out in work, and to offer practical support and advice to employers who employ them.

This work has now led me back to Massey where I am enrolled in the Masters in Applied Social Work where I am now combining policy with social work practice.

**SOCIOLOGY**

A major of the BA

**A GOOD FIT IF YOU**

Are interested in exploring and understanding:

- > How everyday life is influenced by local, national and global processes
- > Social inequality and social justice
- > Culture and identity
- > Environmental, technical and economic changes
- > Conflict, power and social movements

USE YOUR SOCIAL KNOWLEDGE FOR A MEANINGFUL CAREER

With a Massey BA (Sociology), you will get an understanding of some of the biggest issues facing the world today.

WHAT IS IT LIKE?

Sociology is about understanding and describing our local society and its global setting. Sociologists are interested in almost all aspects of the social world and in your BA (Sociology) you will consider questions such as:

- > How is society structured?
- > How is society changing?
- > What divides or unites social groups?
- > What causes the inequalities we see in society?
- > How does power operate?

With a Massey BA (Sociology) you will ask challenging questions about how things really are in the social world. Culture, ethnicity, class, inequality, gender, mass media, politics, environment, social change and individual and group interactions are important areas that you will study. This is a broad subject that will teach you to think critically about the world and investigate social issues.

CAREERS

The understanding of our local society and its global setting that you'll gain from a BA (Sociology) opens up a wide range of career paths:

- > Research and policy analysis for central/local government and non-governmental organisations
- > Teaching
- > Journalism
- > Community and social services work
- > Political advocacy
- > Running a business
- > Planning and consultancy
- > Advertising and marketing
- > TV/film production

■ PETER CHRISP BA (Sociology) MA (Sociology)

Chief Executive - New Zealand Trade and Enterprise (NZTE)

As the Chief Executive for New Zealand Trade and Enterprise (NZTE) my role is to grow New Zealand companies internationally – bigger, better, faster – for the benefit of NZ. We work with people all over the world and participate in the growth of the New Zealand economy.

Aotearoa is full of courageous, inspiring and cause-driven people and one of the best things about my job is being able to work with these ambitious and aspirational leaders every day. Helping them to achieve their goals makes me feel like we are doing something that will really make a difference.

For me, everything started with my Bachelor and Master of Arts at Massey University. Upon graduating there was a part of me that felt like I should have done a professional degree and become a lawyer or an accountant, but in hindsight my BA/MA has been one of the most valuable parts of my journey. It gave me a solid foundation to build on throughout the rest of my life and my knowledge of sociology and epistemology has allowed me to understand the various social, political and cultural contexts that I have been in. However, over time it has also been necessary to continue to build new skills, so I have also added strategy, finance, operations, logistics, marketing and law to the mix. It has been a lifelong journey.

Recently I've spent a lot of time working at Silicon Valley. The business leaders there often talk about creating T-shaped people; a concept that describes someone with both specialist skills (the stalk of the T) as well as broader skills (the line at the top), for example having agility, the breadth to try new things, the ability to question paradigms and the nous to do things differently. It is this generalist/specialist combination that can add the most value.

SPANISH

A major of the BA

A GOOD FIT IF YOU

- > Want to learn a new language
- > Are interested in exploring different cultures
- > Enjoyed Spanish and social studies at school
- > Want skills that can take you all over the world

WHAT IS IT LIKE?

With more than 400 million speakers, Spanish is one of the most widely spoken languages in the world and continues to grow as a popular second language. Spanish is spoken not only in Spain, but also in more than 20 countries in Latin America, parts of Africa, and in many regions of the United States. Alongside the language is a vibrant and captivating cultural heritage, which New Zealanders are beginning to discover and appreciate more fully through our growing relationships with Latin American countries.

RELEVANT IN AUSTRALASIAN CONTEXTS

The increasingly multicultural nature of society means it is important to learn about new languages and cultures, and how they interact with, and are affected by, your own. The BA (Spanish) produces its own digital study materials, relevant to Australasian students, so you will gain skills that are applicable to your own communities.

Massey is New Zealand's only university to deliver language programmes completely via distance. Massey's BA Spanish is available by distance learning to Australian students.

HIGHLY INTERACTIVE WITH PLENTY OF OPPORTUNITIES FOR LANGUAGE PRACTICE

Whether you study on campus or by distance, you will learn from supportive, passionate academics who produce digital study materials complete with exercises, audio, videos and presentations. Your lecturers deliver live online

tutorials/lectures at various times - evenings, lunch times and weekends - to fit with your busy schedule. They ensure that you don't have to learn on your own and that everyone can practise speaking Spanish in a shared environment.

COMBINES CULTURE AND LANGUAGE TO ENHANCE YOUR LEARNING EXPERIENCE

Language does not exist in isolation, and becomes more powerful when it is learnt in a cultural context. You will use videos, music and literature to examine social, historical and political developments. Through exploring this context, you will also explore your own culture and identity.

CAREERS

Trade, tourism and diplomatic relations between New Zealand and the Hispanic world are on an upward trend. By majoring in Spanish your knowledge of Spanish language and culture will prove both valuable and rewarding. A degree majoring in Spanish makes a wide range of career choices possible, including:

- > Banking
- > Journalism
- > Management
- > Marketing
- > Teaching
- > Trade and export
- > Travel and tourism

■ DEBORAH THOMPSON BA (Spanish) Minor in Linguistics, Assistant Language Teacher, Madrid

In my last semester I did an exchange and studied in Alicante on the Mediterranean coast in Spain. It was an amazing opportunity. My lecturers were so supportive and wouldn't let me pass up the opportunity. It turned out to be a surprisingly easy process, and I'm so glad I did it. During my exchange I made so many friends and my Spanish improved incredibly. I am now living and working in Madrid as an Assistant Language Teacher in a primary school. I absolutely love it! The job came to me through the University, and I even got to meet the member of the Spanish embassy who put my application through when he came to Massey to meet with my lecturer. Before I even left New Zealand I had my exchange and my job all sorted. During the summer I work as an au pair while the schools are on holiday. My Spanish continues to get better every day. I am so grateful for all the support I received from the staff in the humanities department at Massey. They were so encouraging and I feel really well prepared for being a teacher of languages. The teaching example that they demonstrated was great and I feel well equipped to be able to put into practice the same techniques. I really appreciate the experience that I had at Massey and would definitely recommend it to anyone.

STATISTICS

A major of the BA

A GOOD FIT IF YOU

- > Want to create quantitative solutions to modern-day problems
- > Enjoy teamwork and collaborating with people from different subject areas
- > Are confident working with modern information technology

BE A HIGHLY SOUGHT-AFTER GRADUATE

The quantitative skills that you'll gain from a Massey BA (Statistics) can set you apart from other graduates when applying for jobs.

WHAT IS IT LIKE?

A Massey BA (Statistics) will teach you to interpret the science of evidence. Statistics allow us to quantify risk and make effective decisions even when we are uncertain about the world around us. Should I buy or sell my stock? Is this new treatment effective against breast cancer? What adverts should my website display in order to increase my revenue? How can I better interpret that weak distress signal coming from a vessel far out at sea?

Seeking answers to questions like these from the recent explosion in digital data makes statisticians some of the most highly sought-after employees.

LEARN THE THEORY AND ITS PRACTICAL RELEVANCE

As a Massey BA (Statistics) student you will learn the key theories of statistics, but you will also get the quantitative skills to conduct robust statistical analysis that is effective in the real world.

BIG DATA = MORE JOBS FOR STATISTICIANS

The explosion of information and data available to the world has made those who can interpret it indispensable. Big Data has opened up a huge range of career opportunities for those who are talented in working with figures.

The Wall Street Journal said in 2013 that 'Data Crunchers [are] Now the Cool Kids on Campus'. It's a great time to be a statistician!

EARN MORE

A Ministry of Education report conducted over nine years showed that science, technology, engineering and maths graduates have high relative earnings compared to other graduates.

CAREERS

Statistics skills are useful in most areas of government, business, industry and the sciences. Jobs that require statistic expertise include:

GOVERNMENT

- > Policy analysis, census, law, national defence

BUSINESS

- > Economics, engineering, marketing, computer science, data mining, business analytics

PHYSICAL SCIENCES

- > Astronomy, chemistry, physics

HEALTH AND MEDICINE

- > Genetics, clinical trials, epidemiology, pharmacology

ENVIRONMENT

- > Agriculture, ecology, forestry, animal populations

MINORS

We encourage all students to complete a minor subject or else a double major. You can choose your minor subject from the BA majors or from the subject areas below. Note: business psychology is not available as a minor subject.

ASIAN STUDIES

With this minor you will gain an understanding of Asian cultures, their differences and similarities, from different disciplinary and thematic perspectives. You can help New Zealand benefit economically, strategically and socially from enhanced Asian cultural literacy. The increasingly multicultural nature of society means it is important to learn about other cultures and how they interact with and are affected by your own.

DEVELOPMENT STUDIES

Development studies seek to understand people and communities in developing nations.

By examining key differences, issues and ideas, development studies help develop skills in finding solutions to development problems.

EMERGENCY MANAGEMENT

Massey is the only Aotearoa/New Zealand university to offer an undergraduate emergency management qualification designed for humanities and social sciences students. This minor will suit students from a range of humanities and social sciences majors but is also relevant to majors outside these disciplines. Emergency management (also known as civil defence or disaster management) explores the way individuals and communities respond to disasters and

emergencies. It aims to increase people's capacity to survive and to rebuild social structures and community resilience.

FRENCH

As the language of romance and diplomats French language and culture has had an impact on the rest of the world for centuries. The ability to speak French opens doors throughout international business and diplomatic communities.

French culture and civilisation have long contributed to our own cultural and linguistic heritage. Over 100 million people speak French not just in France, Belgium, and Switzerland, but also in parts of the South Pacific, Canada, Africa, and Latin America.

NEW ZEALAND STUDIES

New Zealand studies give a multi-disciplinary insight into factors that have shaped and are shaping New Zealand.

PLANNING STUDIES

Planning studies is focused on improving the quality of life in our neighbourhoods, communities and society. Planners design for the future by improving human prospects in the face of rapid economic, environmental, political and technological changes. With this minor you'll be introduced to situations common to planners where you'll have to reconcile conflicting interests by finding common ground, then create innovative options and implement solutions.

PORTUGUESE

From international relations to design, trade to art, science to environmental studies, technology to development, history to indigeneity, education to tourism. These are some of the paths studying

Portuguese leads into. Speakers of English, Spanish, Italian and French will find many commonalities with a language spoken by over 250 million people around the world.

PUBLIC AND PROFESSIONAL WRITING

A Bachelor of Arts (Public and Professional Writing) minor will give you the practical, discipline-focused writing skills you need to succeed in a variety of working environments.

REHABILITATION STUDIES

A minor in rehabilitation studies gives a broad general knowledge of the purpose, practice, and philosophy of rehabilitation. This minor would fit well with a number of BA majors, such as psychology, education, sociology, or social policy.

TE REO MĀORI

With a Massey Bachelor of Arts (Te Reo Māori) minor you'll be able to use New Zealand's indigenous language and participate in a Māori language community in ways that reinforce the everyday use of Te Reo.

THEATRE STUDIES

A minor in theatre studies will develop your acting, directing, teamwork, event management and playmaking skills. You'll be challenged to think critically, write powerfully and learn how to produce compelling creative performances.

You also have the option of selecting a minor from the Bachelor of Business or Bachelor of Science degree. All of the minors available in the BBus and the BSc are also available for BA students.

CONJOINT DEGREES

BA/BBus

BA/BSc

More and more New Zealand employers are seeking graduates with an understanding of business alongside the knowledge and skills of either an arts or science discipline.

Massey's College of Humanities and Social Sciences recognises this and offers two conjoint degrees: the Bachelor of Arts/Bachelor of Business and the Bachelor of Arts/Bachelor of Science.

These conjoint degrees meet the needs of employers and students looking for a combination of knowledge and skills to pursue a career and make a contribution as a global citizen, with additional strengths in business or science.

QUALIFICATION OVERVIEW

The BA/BBus and BA/BSc conjoint degrees let you graduate with both degrees at the end of four years of full-time study. You must study for both degrees concurrently. To remain in the qualification, you must maintain a Grade Point Average of at least 5.0 (a B grade) each year.

PLANNING YOUR DEGREE

In your first year, you should include:

BA/BBus: Four core BBus courses; four BA courses including two core courses and two major courses.

BA/BSc: Four BA courses including two core courses and two major courses; four BSc courses including two major courses.

In your second year, you will need to complete nine courses so that you have passed a total of 255 credits by the end of the year. Your credits should be evenly spread across the two components, and you should ensure that you have completed the three 100-level core courses in the BA, and about half of the courses for your major subject.

In your third year, you will need to complete a further nine courses, all of which should be at 200- or 300-level, and should include the 200-level core course in the BA component. In your fourth year, you will complete the final 120 credits for the conjoint degree.

DEGREE STRUCTURE

- > You will need to pass at least 510 credits, made up of at least 255 credits from the BA schedule (the BA component) AND at least 255 credits from the BBus OR BSc schedules (the BBus or BSc component).
- > For the BA component of either programme, you will need to complete the five core courses and the majoring requirements for at least one subject (Business Psychology is not available as a major in the conjoint programme) and 45 credits from the BA schedule.
- > For the BBus component of the BA/BBus, you will need to complete the eight core courses and the majoring requirements of at least one subject. You must include no more than 135 credits at 100-level and at least 60 credits at 300-level in your BBus component.
- > For the BSc component of the BA/BSc, you will need to complete the majoring requirements of at least one subject, and 30 credits in a second subject at 200 level.

CAREER OPPORTUNITIES

Employment opportunities are going from strength to strength for students who have developed capacities in enquiry, analysis and communication, as well as an understanding of human behaviour, society and the environment. By combining a BA with a BBus or BSc, you'll enhance your competitive edge in the job market. You'll have a deep understanding of people and the wider national and international communities in which they live, coupled with the knowledge and astuteness necessary for business success, or the analytical and conceptual skills valued in the scientific world.

MAJORING SUBJECTS**BACHELOR OF ARTS**

Chinese, classical studies, creative writing, defence studies, economics, education, educational psychology, English, environmental studies, geography, history, Japanese, linguistics, Māori studies, mathematics, media studies, philosophy, politics, psychology, security studies, social anthropology, social policy, sociology, Spanish, statistics.

BACHELOR OF BUSINESS

Accountancy, economics, entrepreneurship and innovation, finance, human resource management and employment relations, international business, management, marketing, organisational technology management, property, strategic communication.

BACHELOR OF SCIENCE

Agricultural science, animal science, biochemistry, biological sciences, chemistry, computer science, data science, earth science, ecology, environmental science, exercise and sport science, genetics, geography, human nutrition, logistics and supply chain management, marine ecology, mathematics, microbiology, physics, physiology, plant science, psychology, statistics, zoology.

BACHELOR OF RESOURCE AND ENVIRONMENTAL PLANNING BRP

A GOOD FIT IF YOU

- > Want to design liveable cities and communities
- > Are interested in sustainability and the environment
- > Are creative and enjoy working with different people

PLAN A BETTER FUTURE

With Massey's Bachelor of Resource and Environmental Planning you can contribute to designing better cities and regions and ensuring sustainable use of resources.

WHAT IS IT LIKE?

Resource and environmental planning is a creative interdisciplinary process that deals with both the natural and human dimensions of the world around us. It recognises and promotes the interdependence of our economy, communities and natural environment.

Planners shape the places in which we live, work and play. They design more liveable, sustainable and resilient cities and regions that respond to rapid economic, environmental, political and technological changes. They help to make sense of the changing world, and design solutions that are innovative, feasible, democratic and sustainable. Planners reconcile conflicting interests by finding common ground to help people create innovative options, then implement agreed-upon solutions.

Resource and environmental planners design cities and urban areas that are innovative and vibrant, with character and aesthetic appeal. They also design efficient and accessible transport systems, create neighbourhoods that are safe and affordable, help plan for productive rural areas that balance economic and environmental goals, and foster natural areas that conserve indigenous flora and fauna, providing opportunities for active recreation and

the appreciation and enjoyment of our unique biodiversity. They address the causes and effects of climate change.

BUILD SKILLS FOR THE FUTURE DEVELOPMENT OF OUR NATION

With a strong focus on sustainable and resilient communities, Massey's BRP is a unique planning degree that combines both urban and environmental planning alongside related subjects from science, business and social science. It combines a generalist planning education with a minor in a planning-related discipline that enables the development of specialist knowledge and skills.

The Bachelor of Resource and Environmental Planning will help you develop critical thinking skills, the ability to conduct independent research, and the skills to work with others in an integrated manner on challenging projects. Students develop interpersonal, communication, ethical and conflict resolution skills essential for working in teams and interacting with people from diverse cultures, communities and backgrounds.

This develops graduates who are prepared for a variety of careers shaping the places in which we live, work and play.

AN ESTABLISHED ENVIRONMENT OF EXCELLENCE

For 35 years, the Bachelor of Resource and Environmental Planning has been led by our faculty of passionate staff, and includes a vibrant social scene connecting current students with graduates. It is also renowned for providing an excellent, practically based planning education and has consistently maintained accreditation with the New Zealand Planning Institute for 35 years.

GET CONNECTED TO INDUSTRY

Through our professional practice courses and active engagement with local and central government and private sector employers, you'll gain experience that is in demand locally and globally across both public and private sectors. You will:

- > Apply your skills to real-world projects
- > Create links and network with industry practitioners
- > Engage in field and studio work, workshops, role-play and case studies
- > Have close interaction with lecturers and leading practitioners
- > Be in demand for graduate positions

CAREERS

Bachelor of Resource and Environmental Planning graduates find jobs quickly, and on average earn around \$50,000 in their first year of employment. While rooted in the New Zealand context, the Bachelor of Resource and Environmental Planning draws on international experience and planning approaches. Graduates can therefore apply their training locally or

overseas in a variety of professional and applied environments such as those listed below:

- > City/district councils
 - > Regional councils
 - > Central government (eg Ministry for the Environment, Department of Conservation, New Zealand Transport Agency, Environmental Protection Authority)
 - > Private consulting firms and corporates (such as Fonterra)
 - > Environmental and other non-governmental organisations
- Bachelor of Resource and Environmental Planning graduates can take on a variety of roles such as:
- > Resource consent planners/ officers
 - > Urban planners
 - > Environmental planners
 - > Transport planners
 - > Urban designers
 - > Policy analysts

■ JOHN YIN Bachelor of Resource and Environmental Planning

I have always had a strong interest in the urban environment. The exponential urban expansion in recent times has presented many socioeconomic and environmental challenges. Environmental planning is an interdisciplinary field. Throughout the degree you'll touch on a diverse range of topics from policy making to number crunching, GIS to visual design. Massey was a great place to study. My lecturers were very approachable and truly cared about their students. The class size was small therefore everyone had the opportunity to interact with the lecturers. The best part of studying at Massey University was the opportunity I had to work alongside my research supervisor on his public transport project. It allowed me to explore my interest in transport planning while gaining invaluable work experience, which may have assisted in being offered a job before I had finished my degree. The degree opens up a wide spectrum of opportunities in resource management, policy advisory, transport management and beyond in both public and private sectors. If you're looking to start your degree my advice is to always keep an open mind and be prepared to challenge and to be challenged by your study. There is always something different waiting ahead so if you like a bit of adventure in your study, planning might just be the perfect choice!

COMMUNICATION QUALIFICATIONS

STUDY COMMUNICATION AT MASSEY

RANKED WITH THE BEST IN THE WORLD

Massey University's communication and media-related programmes are ranked as some of the best in the world by the international university ranking agency QS (Quacquarelli Symonds). We are in the top 200 out of 800 leading world universities. Our communication and marketing programmes originated in the 1970s and provide national leadership in education and research. Our journalism teaching is internationally acclaimed, and enjoys a close working relationship with industry. The Bachelor of Communication (with a major in Public Relations, Communication Management, Journalism Studies, or Marketing Communication) and the Master of Journalism are accredited by the Accrediting Council on Education in Journalism and Mass Communications (ACEJMC). Massey's School of Communication, Journalism and Marketing became the only School in the Asia-Pacific region to receive this prestigious accreditation.

THE BACHELOR OF COMMUNICATION

Combine your love of words and creativity with the study of business to become a highly employable communication specialist. Massey's Bachelor of Communication (BC) builds the skills you need to make an outstanding contribution in whatever field of communication interests you. This relevant three-year degree is unique in New Zealand. You'll join our graduates with exciting careers around the world. The world needs communicators. It needs people who have the creativity and imagination to develop content that will inspire and connect people, and the logic, analysis and language skills to deliver that content in a strategic and meaningful way. Massey University's BC will give you these skills.

THE DIPLOMA IN COMMUNICATION

The Diploma in Communication is taught at Massey University at Manawatū, Albany and Wellington campuses. Courses may also be taken via Distance Learning. The Diploma in Communication is designed to introduce students to a selection of disciplines in the communication field. It provides students with employment pathways in the fields of public relations, communication management, arts administration, event management, relationship management, journalism, web content management, social media adviser, brand management, advertising, marketing/communications executive, or media planning/buying, among others.

THE POSTGRADUATE DIPLOMA IN JOURNALISM

The Postgraduate Diploma in Journalism is the qualification that you need to become a journalist. It is a one-year full-time course, blending the theory with practical, relevant skills. This internationally recognised degree is based on leading overseas journalism qualifications and will build a firm foundation for an exciting career in print journalism, broadcasting and other media-related areas.

For more information on these qualifications see Massey University's *Your Guide to Communication 2019* book.

DIPLOMA IN ARTS

DipArts

A GOOD FIT IF YOU

- > Want to take the first step towards a Bachelor of Arts
- > Are more comfortable with a manageable goal
- > Want the flexibility to follow your passions
- > Have wide-ranging interests
- > Are curious about humanity

GAIN A LIFELONG EDUCATION

With a Massey Diploma in Arts you can study what you enjoy and explore subject areas that spark your interest.

WHAT IS IT LIKE?

Explore tertiary study with a Diploma in Arts. For many students, this is the first step towards taking a full Bachelor of Arts. The Diploma in Arts consists of eight courses (120 credits) from the Bachelor of Arts schedule, and is often used as a springboard to completing the full Bachelor of Arts degree.

YOU CHOOSE WHAT YOU STUDY

You can complete the Diploma in Arts with or without an endorsement in a subject area. Completing the diploma without

endorsement lets you sample different subjects and build a qualification that reflects your own particular interests. If you want to take an endorsement, you can choose from 25 subjects from the Bachelor of Arts degree, and major in the one that sparks your passion. Massey's Diploma in Arts is extremely flexible and you can include courses from many disciplines, including some from outside the humanities.

WHY STUDY ARTS AT MASSEY?

Massey offers passionate and friendly lecturers, a world-class distance-learning programme and access to multi-media learning materials.

The arts are the study of humanity: our history, beliefs, society, language and culture. They ask questions about how we think, how we communicate, and how we interact with our environment. They teach us to analyse the meaning behind what we are, what we do, and how we came to be that way.

Massey will prepare you to be a free and original thinker who will lead New Zealand into the future and help solve some of our big problems.

CERTIFICATE IN ARTS

CertArts

A GOOD FIT IF YOU

- > Are curious about humanity
- > Want to know what makes you and other people tick
- > Want the flexibility to follow your passions
- > Have wide-ranging interests
- > Seek new solutions to world problems

TAKE THE FIRST STEP INTO NEW WORLDS

The world is full of challenging and wonderful places and studying the arts is your passport to discover these.

WHAT IS IT LIKE?

The Certificate in Arts is designed for students who wish to participate in university study without having to commit to

completing a large set of courses. It is also available for those who wish to take a few interest courses at university level.

The Certificate can be used as a stepping stone to the Diploma in Arts, and from there to a Bachelor of Arts degree.

The arts are the study of humanity: our history, beliefs, society, language, and culture. They ask questions about how we think, how we communicate, and how we interact with our environment. They teach us to analyse the meaning behind what we are, what we do, and how we came to be that way.

YOU CHOOSE WHAT YOU STUDY

With a Massey CertArts you can study what you enjoy and explore subject areas that spark your interest. You can choose courses from 30 subjects areas in Humanities and Social Sciences.

WORLD-CLASS EDUCATION AT MASSEY

PROFESSIONAL EDUCATION AND LIFELONG LEARNING

At Massey University we're transforming education through our innovative approach to teaching, learning, and research. We're leading the charge for change in social, cultural, economic, and political spheres, at the national and international level.

Massey University enjoys an international reputation for teaching and research in education. A qualification with us opens up a wide variety of exciting career paths for students both in New Zealand and overseas.

Teaching or education provide you with a career working closely alongside other like-minded individuals and groups, extending your skills, talents and knowledge, shaping minds, changing lives, and developing futures.

Your qualification will enable you to become informed through research and practice. You'll extend your knowledge about the processes and skills of learning and teaching, and of human growth and development. You'll learn more about:

- > Social, organisational, and cultural contexts of education
- > History and ideas behind policy and curriculum development
- > Professional development of teachers and educators.

EDUCATION PROGRAMMES

Massey offers academic and professional programmes ranging from a single course through to certificates, diplomas, postgraduate diplomas, and degrees to doctoral level.

Many programmes allow further study at any level depending upon your interests and circumstances.

Our programmes offer a diversity of professional and applied programmes in areas such as:

- > Education support workers
- > Early childhood education services
- > Special and inclusive education
- > Literacy education
- > Adult and tertiary teaching
- > Educational psychology
- > Education administration and leadership
- > Counselling and guidance
- > Teaching
- > Te Reo Māori in secondary schools
- > Māori medium teaching
- > Information and communication technology
- > Teaching English as an additional language.

LEADING THE CHARGE FOR CHANGE

All programmes are designed to meet current and future educational and teaching requirements, drawing upon best practice, research findings, professional expertise, and the latest information regarding community and professional needs.

Our programmes feature innovation and excellence in teaching, influenced by high standards of scholarship in traditional, strategic, applied and action research.

Our staff work with the community in research, support and consultancy to ensure our teaching programmes are informed continuously by research and best professional practices.

ENTRY TO TEACHING PROGRAMMES

There are three aspects to enrolment for teaching students:

- > Admission to the University
- > Selection into the programme
- > Enrolment for the courses.

ADMISSION TO THE UNIVERSITY

Before enrolment in teaching programmes can be confirmed, applicants must meet the standard criteria for entry to university. Please refer to specific entry requirements for each programme.

THE SELECTION PROCESS

To begin a course of study in teaching, you will need to apply by completing an application form. Applications close in the first week of December. Once your application has been received, the first part of the selection process involves assessment by academic staff. If the staff feel you potentially meet the 'fit character' and 'fit to be a teacher' criteria, you will be invited to an interview. This is the second part of the selection process.

The interview focuses on the following criteria:

- > Fitness for teaching
- > Communication skills
- > Achievement and potential for professional full-time study
- > Awareness of teaching and learning
- > Interests and life experiences.

If the interview panel is satisfied you are a suitable candidate for a teacher education programme you may be offered a place, depending on availability.

THE ENROLMENT PROCESS

For your enrolment to be approved you must be successfully selected, gain admission into the programme and entry into the University, be enrolled into the correct courses, and finally, accept your offer of place. Receipt of the Confirmation of Enrolment form will confirm and finalise the process.

UNDERGRADUATE PATHWAYS TO TEACHING

If you're interested in becoming a teacher, check out the chart on page 40.

PRIMARY

YOU HAVE TWO OPTIONS

MANAWATU & DISTANCE ONLY

ALBANY & MANAWATU ONLY

MANAWATU ONLY

Graduate Diploma in Teaching (Early Childhood Education) Graduate Diploma in Teaching (Primary) Graduate Diploma in Teaching (Secondary)

This one-year course can be completed in Early Childhood, Primary and Secondary teaching. Includes 15 weeks of placement in schools. This qualifies you for provisional teacher registration. Graduates have an excellent record of gaining full registration.

Master of Teaching and Learning

This one-year postgraduate course will prepare you for Primary or Secondary teaching. It is an innovative programme taught collaboratively with partner schools to provide high quality learning and mentoring environments in both school and university settings. You will complete placement three days per week throughout the school year and six weeks full time.

WHY MASSEY?

Massey University Institute of Education is ranked in the top 100 among universities worldwide. We have a national reputation for innovation in our initial teacher education programmes. We have strong connections with partner schools to ensure industry relevant learning and hands-on experience.

ENTRY REQUIREMENTS

Selection entry forms are available from www.massey.ac.nz/teachingentry

If you have a bachelor's degree or higher, are passionate about teaching and learning and want to make a difference, we would love to hear from you.

- For Early Childhood or Primary teaching, a degree comprising education-related papers and subject specialisms (literacy, numeracy, science, art etc) is a good foundation. A recommended degree is a Bachelor of Arts (Education).
- For Secondary teaching you will need a degree with a major in your intended teaching subject and a minor in a second subject.

TEACHER REGISTRATION

Successful completion of our initial teacher education programmes will qualify you to register as a provisionally registered teacher with the Education Council of Aotearoa New Zealand.

TE AHO TĀTAIRANGI: BACHELOR OF TEACHING AND LEARNING KURA KAUPAPA MĀORI BTchgLrnKKM

A GOOD FIT IF YOU

- > Are fluent in te reo Māori
- > Want to become a teacher in kura kaupapa Māori
- > Work best in an inclusive and inter-connected environment
- > Are dedicated to helping children become raukura for their iwi
- > Want to learn within Te Aho Matua contexts

WHAT IS IT LIKE?

Ko te manu e kai i te miro nōna te wao tapu nui a Tāne Mahuta. Ko te manu e kai ana i te mātauranga nōna te ao.

The bird that feasts of the miro belongs to the great forest of Tane. The bird that draws sustenance from knowledge will inherit the world.

The primary aim of this programme is to offer you a professional initial teacher education undergraduate programme which meets the requirements of Kura Kaupapa Māori, of Māori language immersion schools, and of the teaching profession. As a student teacher, this university degree provides you with the necessary knowledge and skills to become effective kaupapa Māori immersion practitioners who meet the academic requirements necessary to later follow an advanced study at postgraduate level.

You will have access to a Kura Hāpai (base school) of your choice to assist you throughout the duration of your studies.

From 2019 Te Aho Tātairangi: Bachelor of Teaching and Learning Kura Kaupapa Māori will be offered as a three year degree and will replace the current Bachelor of Teaching Māori Medium/Diploma in Māori Education programme four year degree. The four year degree will be taught out with the current cohort. Te Aho Tātairangi is a full-time programme designed for competent speakers of te reo because all

courses are taught through the medium of te reo Māori.

- > Hei whakaū i tō tātou reo i ā tātou tikanga otirā hei whakamana i te kōrero nei ka taea e te reo ngā mahi katoa.
 - > He akoranga tēnei mō te toru tau kia mātau ake koe ki ngā āhuatanga;
 - > Ki te whakapakari i te tamaiti.
 - > Ki te whakapakari i a koe.
 - > Ki te whakapakari i te whānau.
 - > Ko te reo ako, ko te reo rangatira (he whakaaturanga anō mō tēnei tohu).
- Ka whakauru koe ki ngā kura kaupapa, rumaki, reo rua ki te whai i ngā wheako o ngā pouako. I a koe i konā, ka tū ngāio, ka mau koe ki ngā tikanga o ngā kura.

CAREERS

Graduates of this professional initial teacher education programme will have the knowledge and skills to enter teaching in New Zealand schools. They will be eligible to apply for registration as provisionally registered teachers with the Education Council of Aotearoa New Zealand.

Graduates will be highly competent, knowledgeable and skilled as effective, reflective and creative teachers for Māori immersion settings.

ENTRY REQUIREMENTS

In addition to the selection criteria outlined below, before enrolment in the Te Aho Tātairangi: Bachelor of Teaching and Learning Kura Kaupapa Māori you will need to have:

1. Met the standard criteria for entry to University;
2. Demonstrated a high level of competency in Te Reo Māori me ōna tikanga;
3. Demonstrated competence in literacy and numeracy (including but not limited to English) and;
4. Met the requirements set down by the Education Council of Aotearoa New Zealand for registration as a teacher in New Zealand in terms of good character and fitness to be a teacher.

Note: If you are aged 20 or over you must have evidence or be able to demonstrate prior success at tertiary (Level 5 or above) study.

APPLICATION PROCESS

To begin an initial teacher education programme you must first apply through MyEnrolment. There is only one intake at the start of each year, but applications are open throughout the year for future intakes. Applications close on 10th December each year. Late applications may be considered subject to available places and complete documentation.

When you apply online you will be asked to upload:

- > A Teaching Selected Entry form
- > A completed observation report from your observation of a group of primary learners
- > A completed Te Kura Hāpai form
- > A handwritten document, in standard English or Māori, explaining why you chose this programme of study. List any personal characteristics you have that might strengthen your application
- > A consent to disclosure for a New Zealand Police check

You will also print two Referee's Report Forms, arrange for your referees to complete and sign them and then return them to the University to support your application.

If you are a new student to Massey University you will be asked to upload evidence of your identity (such as a birth certificate or passport) and evidence of previous tertiary study (if applicable).

THE SELECTION PROCESS

All initial teacher education programmes at Massey University require students to be selected into the programme. The first part of the selection process involves assessment by academic staff within the College of Humanities and Social Sciences. If the selection committee feel you potentially meet the 'fit character' and 'fit to be a teacher' criteria, you may be invited to an interview. This is the second part of the selection process. Interviews for the Te Aho Tātirangi programme will be conducted in Māori and on the marae if requested by the applicant. Potential students for this programme are required to have fluency in Te Reo Māori such that they can sustain learning in a total immersion Māori environment. The interview undertaken by College staff focuses on the following criteria:

- > Fitness for teaching
- > Communication skills
- > Achievement and potential for professional full time study
- > Awareness of teaching and learning
- > School/work/community involvement
- > Interests and life experiences

As part of the selection process, you may be asked to complete any of the selected tests as follows:

- > A sample from the NCEA 3 Te Reo Rangitira - panui and tuhiuhi external examination and/or;
- > A reo Māori test based on a Massey University 100-level (first year) examination to determine your ability to study at Level 5 and/or;
- > A maths test based on the NCEA Mathematics Level 1 examinations.

You will be advised if you are required to sit any of the above tests, when you receive notification of your interview.

If the interview panel is satisfied that you are a suitable candidate for the Te Aho Tātirangi programme you will be reserved a place, depending on available places. Selection into a programme does not give you automatic entry and admission into the University. The Student Administration team will check and verify your entrance and admission and ensure you are

enrolled correctly into your first year courses. Successful applicants who already meet the admission requirements and those who achieve university entrance in the NCEA examinations will be confirmed into their programme of study and sent an offer of place. To assume a place within a teacher education programme you must be selected, and gain entry and admission into the University and accept your offer. Receipt of the Confirmation of Enrolment form will confirm and finalise the process.

If you are not offered a place in the programme of your choice, you may like to get in touch with our Contact Centre to discuss other qualifications.

SAFETY CHECKS AND DISCLOSURE OF CRIMINAL CONVICTIONS

All applicants are required to undergo a number of safety checks. This includes police vetting (including confirmation of identity) and further checks required under the Vulnerable Children Act 2014, Vulnerable Children Regulations 2015 and the Children's Action Plan. You will be required to permit the College to ask the New Zealand Police to disclose any information held on the Police record system.

- > Have an undergraduate degree

HELP ADDRESS NATIONAL NEEDS IN THE EARLY CHILDHOOD SECTOR

The Graduate Diploma of Teaching (Early Childhood Education) will develop your knowledge, skills and practices in early childhood education settings.

WHAT IS IT LIKE?

This is a highly rewarding, full-time intensive programme.

ENJOY LOADS OF SUPPORT

You will be studying by distance, and will use your independent study skills to pace your study and achieve success. Along your journey you will have regular online contact and support from lecturers and fellow students around the country.

GET PRACTICAL EXPERIENCE

Each course involves study, reading, assignment work and teaching experience. You can expect to complete 14 weeks of practicum in a variety of early childhood services.

ENTRY REQUIREMENTS

In addition to meeting the entrance requirements to Massey University, students selected for the Graduate Diploma of Teaching (Early Childhood Education) with Massey University must hold either:

1. A New Zealand Primary teacher education degree, or a New Zealand teacher education (Primary) three-year diploma or equivalent (which meets the requirements of the Education Council of Aotearoa New Zealand for registration as a teacher in New Zealand)
- OR
2. An overseas Primary teacher education degree or an overseas primary teacher education three-year diploma or equivalent (assessed by NZQA) and be at least provisionally registered with the Education Council.

OR

3. A Bachelor's degree at level 7 on the New Zealand Qualifications Framework (NZQF) consisting of at least 360 credits (or equivalent overseas degree) and have completed approved courses in education to the value of at least 30 credits. The approved courses in education should be from the following areas of understanding:
- Human development or child development and
 - Education in Aotearoa/New Zealand, which includes a study of Te Tikanga and/or Te Reo.

If you have not completed courses in education within your Bachelor degree we would suggest that you consider completing **275.102 Human Development** and **254.101 An Introduction to Social and Cultural Studies in Education** (alternative course for Semester 2 is **150.204 Mana Māori: Māori and Politics**) at Massey University under a Certificate of Proficiency (HumSocSci) prior to applying for selected entry into the Graduate Diploma of Teaching (Early Childhood Education) programme. Please note these courses will not count towards the Graduate Diploma of Teaching (Early Childhood Education) and they do not guarantee you a place in the programme.

Applicants with qualifications obtained overseas must have these qualifications assessed by New Zealand Qualifications Authority (NZQA) to determine comparability with New Zealand qualifications. The NZQA Assessment must be provided with the completed selected entry application. NZQA Assessments older than three (3) years at the time of applying may not be accepted. If this applies to you, please contact NZQA, Qualification Review Service requesting a review of the original assessment notes. They will inform you if you need to re-apply to NZQA. NZQA accreditation can take up to 35 working days. For more information on applying to NZQA please refer to their website nzqa.govt.nz

ENGLISH LANGUAGE REQUIREMENT

If your first language is not English, you will need to attach a verified copy of your results in the form of an IELTS test. The IELTS test must have a score of at least 7.0 or higher in all components of the academic version of the IELTS test.

The only exemptions to this requirement are:

- > If you are a teacher who has registered with the Education Council of Aotearoa New Zealand, and holds a current Practising Certificate.
- > If you hold a degree (Level 7 or higher) from either a New Zealand or Australian tertiary education organisation, where the medium of instruction was fully in English and studied in a campus model of delivery in each year of the degree.
- > If you have studied in New Zealand for a minimum of two years at secondary school and have met University Entrance requirements in Literacy.

Further clarification on English Language Requirements can be gained by contacting the Education Council at: educationcouncil.org.nz

APPLICATION PROCESS

To begin an initial teacher education programme you must first apply through Massey's online enrolment system 'MyEnrolment'. There is only one intake at the start of each year, but applications are open throughout the year for future intakes. Applications close on 10th December each year. Late applications may be considered subject to available places and complete documentation. When you apply online you will be asked to upload:

- > A Teaching Selected Entry form
- > A completed observation report from your observation of a group of early childhood learners
- > A consent to disclosure for a New Zealand Police check.

If English is not your first language you may be required to upload the results of an Academic IELTS test (see details above).

You will also print two Referee's Report Forms, arrange for your referees to complete and sign them and then return them directly to the University to support your application.

If you are a new student to Massey University you will be asked to upload evidence of your identity (such as a birth certificate or passport) and evidence of previous tertiary study (including an NZQA assessment report if your qualification was obtained overseas).

SELECTION PROCESS

All initial teacher education programmes at Massey University require students to be selected into the programme. Selection, and the subsequent offer of a place in the programme, is determined by the information submitted in the application form and the interview process. The first part of the selection process involves assessment by academic staff within the Institute of Education. If the selection committee feel you potentially meet the 'fit character' and 'fit to be a teacher' criteria, you may be invited to an interview. This is the second part of the selection process. The interview undertaken by Institute staff focuses on the following criteria:

- > Disposition for Teaching
- > Communication Skills
- > Achievement and Potential for Professional Full Time Study
- > Awareness of Teaching and Learning

If the interview panel is satisfied that you are a suitable candidate for the GradDipTchg (ECE) programme you will be reserved a place, depending on available places. Selection into the GradDipTchg (ECE) programme does not give you automatic admission to the programme or entry into the University. The Student Administration team will check and verify your entrance and admission and ensure you are enrolled correctly into your courses. Successful applicants who already meet the admission and entrance requirements will be confirmed into their programme of study and sent an offer of place.

To assume a place within the GradDipTchg (ECE) programme you must be selected, gain admission into the programme and entry into the University and accept your offer. Receipt of the Confirmation of Enrolment form will confirm and finalise the process.

If you are not offered a place in the programme of your choice, you may like to get in touch with our Contact Centre to discuss other qualifications.

SAFETY CHECKS AND DISCLOSURE OF CRIMINAL CONVICTIONS

All applicants are required to undergo a number of safety checks. This includes police vetting (including confirmation of identity) and further checks required under the Vulnerable Children Act 2014, Vulnerable Children Regulations 2015 and the Children's Action Plan. You will be required to permit the Institute of Education to ask the New Zealand Police to disclose any information held on the Police record system.

CAREERS

ACHIEVE YOUR EARLY CHILDHOOD EDUCATION CAREER DREAMS

The GradDipTchg(ECE) is a one-year professional pre-service qualification that enables primary-qualified teachers or undergraduate degree holders to become knowledgeable, skilled and reflective teachers in early childhood education.

BECOME A REGISTERED TEACHER

On completion of the GradDipTchg(ECE), graduates are eligible to apply for registration with the Education Council of Aotearoa New Zealand as provisionally certificated teachers. As a provisionally certificated teacher, you will be qualified to teach in New Zealand kindergarten and early childhood education settings.

JOIN OUR SUCCESSFUL GRADUATES

Our graduates have a high success rate in winning jobs as teachers at the conclusion of their initial teacher education programme - why don't you join them?

GRADUATE DIPLOMA OF TEACHING (PRIMARY)

GradDipTchg(Primary)

A GOOD FIT IF YOU

- > Want to work with children
- > Are passionate about teaching and learning
- > Are keen to be involved in the community and make a difference to the lives of others
- > Work well with others
- > Are good at communicating

MAKE A DIFFERENCE IN YOUNG PEOPLE'S LIVES.

The Graduate Diploma of Teaching (Primary) will help you mould the children of today into the leaders of tomorrow.

WHAT IS IT LIKE?

The Graduate Diploma of Teaching (Primary) is either a one-year full-time or two-year part-time intensive course which you choose to undertake either on campus as an internal student (either at Palmerston North or Auckland) or in your own home as a distance student. The programme aims to develop professional understandings and the practical skills required to guide children's learning in New Zealand primary school classrooms.

This course is designed to build on the breadth of knowledge and life skills you bring with you and to further enhance your disposition for learning and teaching.

RENOWNED IN NEW ZEALAND AND ABROAD

This internationally portable qualification is ranked in the top 100 among universities worldwide, has a 90% rate of teacher registration, and a national reputation for innovative teaching from our breadth of leading specialist lecturers. Its reputation means you will be in demand for teaching positions both in New Zealand and overseas upon graduating.

GAIN SKILLS RELEVANT TO THE FUTURE OF EDUCATION

Our combined offering of extensive placement in partner schools, and large faculty of practitioner based teaching staff means you will gain significant real-world teaching and learning experiences and graduate with the skills and knowledge to create your own innovative teaching environments.

CAREERS

Graduates of the Graduate Diploma of Teaching (Primary) will be eligible to apply for provisional teacher registration with the Education Council of Aotearoa New Zealand. As a provisionally certified teacher, you will be qualified to teach in New Zealand primary and intermediate schools. Massey University Institute of Education prides itself on the success rate of its graduates in winning jobs as teachers at the conclusion of their initial teacher education programme.

ENTRY REQUIREMENTS

To assume a place within a teacher education programme you must be selected, gain entry into the University and gain admission to the programme. Entry requirements are detailed on the regulations button.

In addition to meeting the entrance requirements to Massey University students selected for the Graduate Diploma of Teaching (Primary) with Massey University must hold the minimum entry level of one of the following qualifications:

- > A Bachelor's degree at level 7 on the New Zealand Qualifications Framework (NZQF) consisting of at least 360 credits
- > A Bachelor's degree with Honours at level 8 on the (NZQF) consisting of at least 480 credits
- > A Master's degree at level 9 on the (NZQF) consisting of 240 credits.

Applicants with qualifications obtained overseas must have these qualifications assessed by New Zealand Qualifications Authority (NZQA) to determine comparability with New Zealand qualifications. The NZQA International Qualifications Assessment must be provided at the time of applying. NZQA Assessments older than three (3) years at the time of applying may not be accepted. If this applies to you, please contact NZQA, Qualification Review Service requesting a review of the original assessment notes. They will inform you if you need to re-apply to NZQA. NZQA accreditation can take up to 35 working days. For more information on applying to NZQA please refer to their website nzqa.govt.nz

ENGLISH LANGUAGE REQUIREMENT

If your first language is not English, you will need to attach a verified copy of your results in the form of an IELTS test. The IELTS test must have a score of at least 7.0 or higher in all components of the academic version of the test. The only exemptions to this requirement are:

- > If you are a teacher who has registered with the Education Council of Aotearoa New Zealand, and hold a current Practising Certificate.
- > If you hold a degree (Level 7 or higher) from either a New Zealand or Australian tertiary education organisation, where the medium of instruction was fully in English and studied in a campus model of delivery in each year of the degree.
- > If you have studied in New Zealand for a minimum of two years at secondary school and have met University Entrance requirements in Literacy.

Further clarification on English Language Requirements can be gained by contacting the Education Council at: educationcouncil.org.nz

GRADUATE DIPLOMA OF TEACHING (SECONDARY)

GradDipTchg(Secondary)

A GOOD FIT IF YOU

- > Are good with people and communicating
- > Want to shape the lives of New Zealand's youth
- > Are passionate about teaching and learning

BE AN INSPIRER OF 21ST CENTURY EDUCATION

With Massey's Graduate Diploma of Teaching (Secondary) you'll be prepared to lead the way in shaping our future nation.

WHAT IS IT LIKE?

Secondary teaching is a challenging and satisfying career choice for those who enjoy being involved with young people in activities that extend their skills and talents. New Zealand needs highly qualified secondary school teachers to support its youth. Graduates like you bring the required skills, knowledge and attitudes to the nation's secondary school students. The Graduate Diploma of Teaching (Secondary) is available by distance (online) learning so you can study wherever you are.

CAREERS

On completion of the Graduate Diploma of Teaching (Secondary), graduates are eligible to apply for registration with the Education Council of Aotearoa New Zealand as provisionally certified teachers. As a provisionally certified teacher, you will be qualified to teach in secondary schools throughout New Zealand. Massey University Institute of Education prides itself on the high regard in which graduates of this diploma are held within the secondary education system.

ENTRY REQUIREMENTS

To assume a place within a teacher education programme you must be selected, gain entry into the University and gain admission to the Graduate Diploma of Teaching (Secondary) programme. Entry requirements are detailed on the regulations button on our website. In addition to meeting the entrance requirements to Massey University, students selected for the Graduate Diploma of Teaching (Secondary) with Massey University must hold the minimum entry level in one of the following qualifications:

- > A Bachelor's degree at level 7 on the New Zealand Qualifications Framework (NZQF) consisting of at least 360 credits
- > A Graduate Diploma or a Diploma for Graduates at level 7 on the NZQF consisting of 120 credits
- > A Bachelor's degree with Honours at level 8 on the NZQF consisting of at least 480 credits
- > A Postgraduate Diploma at level 8 on the NZQF consisting of at least 120 credits
- > A Master's degree at level 9 on the NZQF consisting of 240 credits.

For the Graduate Diploma of Teaching (Secondary) you are required to have two teaching subjects appropriate to the secondary school curriculum. Your entry qualification should comprise relevant content-based courses. You will be required to have the academic background to equip you to teach at least one subject at senior level (Years 11-13). For this subject you will need at least one course (preferably two) at 300-level, supported by relevant 100- and 200-level courses.

You will be required to have the academic background to equip you to teach at least one subject at senior level (Years 11-13). For this subject you will need at least one course (preferably two) at 200-level, supported by relevant 100-level courses. This is to provide you with the appropriate knowledge in order to be able to teach these subject areas proficiently in the classroom.

Applicants with qualifications obtained overseas must have these qualifications assessed by New Zealand Qualifications Authority (NZQA) to determine comparability with New Zealand qualifications. The NZQA International Qualifications Assessment must be provided at the time of applying. NZQA Assessments older than three (3) years at the time of applying may not be accepted. If this applies to you, please contact NZQA, Qualification Review Service requesting a review of the original assessment notes. They will inform you if you need to re-apply to NZQA. BACHELOR OF SPEECH AND LANGUAGE THERAPY WITH HONOURS

BSLT (Hons)

KEY FACTS

AVAILABLE AT AUCKLAND
FOUR YEARS OF FULL-TIME STUDY
AVAILABLE FOR INTERNATIONAL
STUDENTS STUDYING IN NZ

A GOOD FIT IF YOU

- > Enjoy working with others
- > Have good problem-solving abilities
- > Want a rewarding professional career
- > Are interested in understanding communication and its disorders
- > Want to challenge yourself

MAKE YOUR PASSION FOR HELPING PEOPLE A REALITY

A Massey Bachelor of Speech and Language Therapy with Honours will set you up for a rewarding career supporting people of all ages with speech and language difficulties.

WHAT IS IT LIKE?

MAKE A DIFFERENCE TO PEOPLE'S LIVES

As a speech-language therapist you'll facilitate independence in individuals. You'll assess and work with people who have a variety of communication disorders, improving their ability to participate in school, work, or other daily activities. Whether you're working with children who have speech or language disorders, or adults with a traumatic brain injury or stroke, you'll be improving people's quality of life by facilitating their communication.

GAIN PRACTICAL EXPERIENCE

Massey's Bachelor of Speech and Language Therapy with Honours combines academic coursework with supervised clinical experience. You'll work alongside practising speech-language therapists to gain clinical hours in a wide range of settings such as schools, rehabilitation centres, child development services and community settings. You can get your practical experience across New Zealand.

GET UP FOR THE CHALLENGE

The Bachelor of Speech and Language Therapy with Honours requires a commitment to academic and practical excellence that will make you the best speech-language therapist you can be. This will be reflected in your ability to help support individuals to communicate when you join the workforce.

CAREERS

With your Bachelor of Speech and Language Therapy with Honours, you'll be able to work as a Speech-Language Therapist to work in partnership to support people of all ages who have speech, language and swallowing disorders. Graduates typically find work in areas such as:

- > Education
- > Health
- > Rehabilitation
- > Private practice

ENTRY REQUIREMENTS

You must be selected into the Bachelor of Speech and Language Therapy Honours Programme in the Institute of Education and have gained entrance to Massey University. Selection, and the subsequent offer of a place in the programme, is determined by the information submitted in your online application and an interview process.

Please login to the on-line enrolment system to apply for selected entry.

> enrol.massey.ac.nz

Applications received by the University by the 5th December 2018 will be considered for study commencing in semester one 2019.

Applications received after this date will be considered but may not be in time to start in 2019. The first part of the selection process involves assessment by academic staff within the Institute of Education. If the selection

committee feel you potentially meet the selection criteria, you will be invited to an interview. This is the second part of the selection process. If the interview panel is satisfied that you are a suitable candidate you may be offered a place, depending on available places. Admission to the Degree of Bachelor of Speech Language Therapy with Honours requires that the candidate will:

- > Meet the University admission requirements as specified, and will:
- > Have achieved 14 credits at NCEA Level 3 or higher in English and 16 credits or more at NCEA Level 3 or higher in one of the following subjects: biology, chemistry, physics, calculus or statistics;
- and will have:
- > Been selected into the Qualification based on a selection process that may include a written application, interview, and practical exercises;
- > Achieved an IELTS of 7.0 with no band less than 7.0 within the preceding two years if English is not the applicant's first language.

Once you have accepted the offer of a place in the selected entry programme, the College of Humanities and Social Sciences will ensure you are enrolled for the first year of study as outlined in the letter of offer. Once you have been granted entrance and admission to the University your enrolment will be confirmed.

In order to progress from Part 1 to Part 2, or Part 2 to Part 3 students must have passed all courses in the preceding Part.

For progression to Part 4 of the Bachelor of Speech and Language Therapy and to graduate with Honours, students must have maintained at least a B+ grade average in the Part 3 courses, otherwise they will graduate without Honours at the successful conclusion of Part 4.

■ **KAREN STURGE** Bachelor of Speech and Language Therapy

Speech language therapist - Whangarei Hospital

I became interested in speech language therapy after seeing speech language therapists being interviewed on television during speech language therapy awareness week. It seemed like a really interesting profession that would enable me to use my love of language in a therapeutic way.

I chose to study at Massey after having a positive experience studying accounting courses by distance learning and because of the Auckland campus' proximity to Northland. As a mature, married student I didn't want to be too far away from home.

I found every course of my programme really fascinating; however, it was very full on, so I did have to put the rest of my life on hold for a while! Massey made every effort to secure clinical placements for me in my home town and I was lucky to have fabulous placements with the Ministry of Education and Northland District Health Board. After I graduated, I ended up with job offers from both, and after careful consideration took the job with Northland District Health Board, working at Whangarei Hospital. This is basically my dream job working with adults who have speech, language or swallowing difficulties mainly as a result of brain injury. My job is very varied and I work in a huge multidisciplinary team with nurses, doctors, physiotherapists, occupational therapists and social workers to name a few. I've no plans to change my job in the immediate future, but when I am ready to semi-retire I may look at setting up a private practice.

GRADUATE CERTIFICATE IN TEACHING ENGLISH AS AN ADDITIONAL LANGUAGE

GradCertTEAL

A GOOD FIT IF YOU

- > Want to study part-time, and by distance learning, to fit in with family or employment commitments
- > Want a professional qualification
- > Want to gain theoretical and practical perspectives that will help you teach English as an Additional Language (EAL) students

WHAT IS IT LIKE?

The Graduate Certificate in Teaching English as an Additional Language (GradCertTEAL) is a flexible undergraduate qualification for students from a range of different background experiences. You must have access to English as an Additional Language (EAL) learners for all courses that you study with us. If you are not currently teaching you can contact your local English Language Partners (see www.englishlanguage.org.nz for information on your local branch), or schools or language institutions in your area and ask about volunteering.

WHY STUDY WITH US?

- > You will develop the ability to share your knowledge and research
- > You will develop a critical awareness of theory, research and pedagogy that directly benefits your teaching
- > You will be taught by highly qualified, well-regarded lecturers who are supportive and provide a high level of pastoral care
- > You will learn skills to apply to your own professional context
- > Massey University has extensive experience offering online, blended and distance qualifications

ENTRY REQUIREMENTS

For admission to this Graduate Certificate students need to provide evidence that they have access to teaching a group of learners of English as an additional language within a formal educational setting and have:

- > A university degree or diploma; or
- > Completed at least two years of relevant practical, professional, or scholarly experience.

For the purposes of this Graduate Certificate, a relevant practice situation may be a school or other approved institution, or be teaching under the New Zealand English language partners scheme (see www.englishlanguage.org.nz).

You will need to supply official academic records and a CV when you apply for enrolment.

It is important to note that the Graduate Certificate in Teaching English as an Additional Language is not a 'start-up' course in TESOL/TEAL, but is designed to enhance ongoing teaching of experienced practitioners.

PLANNING

The programme is designed for part-time study, so it is not possible to take all four courses in one semester. The suggested course order is to take the two electives first, followed by the two compulsory courses.

FINANCIAL ASSISTANCE

You might be eligible to apply for a scholarship or award. You can use our scholarship search to see what is available. You may also be eligible for a student loan to help towards paying your fees.

CAREERS

WHERE WILL YOUR SKILLS TAKE YOU WITH GradCertTEAL?

GradCertTEAL can lead to numerous career opportunities, professionally and in voluntary positions in the community as well as overseas. Your skills and teaching knowledge will always be in demand. You can use the qualification to advance your career in teaching English language learners.

Graduates find work or enhance their careers in many educational areas such as:

- > Adult education, tertiary institutions, schools and early childhood centres
- > Applied linguistics
- > Bilingual education
- > Teaching English as a foreign language
- > Teaching English to speakers of other languages
- > Intercultural communication roles
- > International teaching positions
- > International teaching assistant positions
- > Reading and writing student support roles
- > Teacher education

MASTER OF TEACHING AND LEARNING MTchgLn

If you're a people person, are passionate about teaching and learning and have a strong academic record, this advanced qualification is for you.

WHAT IS IT LIKE?

ADVANCE YOUR TEACHING POTENTIAL

This 180-credit masters programme is an advanced one-year innovative and exemplary approach to teacher education (primary and secondary).

INNOVATIVE, PRACTICAL AND CONNECTED TO THE SECTOR

The Master of Teaching and Learning is taught collaboratively with partner schools to provide unique high-quality teaching, learning and mentoring experiences in school, university and community settings. Some of the many distinctive features of this programme include: individual and small group mentoring; personalised learning to build on strengths and customise your learning needs; and a rich blended learning community. This cutting-edge approach to initial teacher education is designed to equip you with the adaptive expertise and self-efficacy to meet the learning needs of all learners.

DEVELOP YOUR PROFESSIONAL IDENTITY

This programme will spark your passion for lifelong professional learning and encourage you to continuously evolve your professional identity and philosophy of teaching and learning. Our approach to professional development means you will graduate with high-level pedagogical, inquiry and curriculum knowledge and skills, as well as an increased capacity for educational leadership. It will also prepare you for further study and career pathways in line with the Investing in Educational Success Initiative.

SOLVE THE BIG ISSUES IN EDUCATION

As classrooms become increasingly diverse and advanced, education faces a range of new and unexpected challenges. At Massey we are committed to addressing these challenges and shaping our future nation. Through our Inquiry courses we shape teachers who are the problem-solvers and game-changers of 21st century education.

WHY MASSEY?

- > We have internationally recognised experts in primary and secondary teacher education.
- > Our education programme is ranked in the top 100 among universities worldwide.
- > We have a national reputation for innovation and relational approaches in our teacher education programmes.
- > We have strong connections with partner schools and ensure industry-relevant learning and hands-on experience.

TEACHER REGISTRATION

Graduates of this programme will be eligible to apply for registration with the Education Council of Aotearoa New Zealand and to become a provisionally certificated teacher.

CAREERS

This initial teacher education qualification will prepare you for a career as a primary or secondary teacher.

DIPLOMA IN HUMAN DEVELOPMENT

DipHD

WHAT IS IT LIKE?

The Diploma in Human Development extends understanding of theoretical and applied study and research in the area of human development. This multidisciplinary programme examines the development of individuals across the lifespan. Courses emphasise physical, cognitive and psychosocial domains of development. Through coursework and undergraduate research activities, you will develop skills relevant to career objectives such as counselling, human assessment,

programme planning and evaluation, and research.

Graduates will use a broad range of theory and research to understand and explain the development of people from early childhood through to old age, examine the influence of contexts, and apply this knowledge to specific life situations.

ENTRY REQUIREMENTS

Students must have entrance to University to gain admission.

CAREERS

This diploma enables you to prepare for professional, managerial, or scientific roles in health and human services professions. It opens career opportunities in public and non-profit agencies, and in business and industry, as well as for advanced professional or graduate study.
